

Salesforce Certified Education Cloud Consultant

1. The career center at a university plans to use Student Success Hub and is preparing to import student data.

In which order should the data be imported?

A. Account, Term, Course, and Course Offering records

B. Account, Term, Program Enrollment, and Course records

C. Course, Course Offering, Program Plan, and Affiliation records

2. A university has hired a consultant to help it plan the campus's enterprise roadmap for Salesforce. The CIO wants to use a single Salesforce org across the university and is interested in learning more about the Education Data Architecture (EDA). The university has two existing Salesforce orgs; one uses Person Accounts and the other uses a custom data architecture.

What should the consultant do first to assess the situation?

A. Install EDA into one of the production environments.

B. Submit a Salesforce Support case to merge orgs.

C. Document solution requirements from the groups involved.

3. A university's strategic goal is to improve its MBA program rankings. A data point that influences the MBA program ranking is acceptance percentage. The university has asked a consultant to help it reach the goal and increase prospective student engagement across multiple channels.

What should the consultant recommend?

A. Implement Marketing Cloud Engagement to manage recruitment campaigns.

B. Use Education Cloud to replicate the current systems and processes.

C. Implement Account Engagement Lead Scoring to find well-qualified students.

4. A consultant is working with a customer who already uses Salesforce and wants to enable Education Cloud. The consultant has confirmed that Education Cloud can work in the customer's existing environment.

Starting in a sandbox, which location should the consultant visit to enable Education Cloud in the existing environment?

A. App Launcher

B. My Account

C. Setup

5. A Recruitment department wants to centralize its recruitment efforts and application operations, and engage with students through social channels like WhatsApp.

Which solution set should the consultant recommend?

A. Education Cloud and Slack

B. Service Cloud and Digital Engagement

C. Education Cloud and Marketing Cloud

6. The CRM steering committee that oversees the university's Salesforce implementation needs guidance on governance best practices.

Which best practice should a consultant recommend?

A. Assign only department leaders as champions.

B. Establish a Center of Excellence.

C. Ask committee members to join a local Salesforce group.

7. A university is working with a consultant to install and configure the Education Data Architecture (EDA). The university uses the Default Account Model. The university wants accounts to include the first and last name of each contact at the time the contact is created.

Which action should the consultant take in EDA Settings to meet this requirement?

A. Set the Account Model to Household.

B. Select the Run Backfill button.

C. Edit Administrative Account Name Format.

8. A higher education institution has used Salesforce for many years and has Person Accounts enabled. The institution wants to install the Education Data Architecture (EDA) in its existing Salesforce environment.

Which consideration should the consultant discuss with the institution?

A. A support ticket is required to disable Person Accounts.

B. Person Accounts are unsupported in EDA.

C. Person Accounts can only be merged with Administrative Accounts.

9. The IT department at a university is evaluating open source solutions for student events management.

Which consideration should the consultant discuss with the department?

A. The code is maintained by Salesforce developers.

B. The code is updated via Salesforce Releases.

C. The code is shared and sourced by the community.

10. A system admin plans to load data into Education Data Architecture in the following order: Term, Course, Course Offering, and Account.

What should the consultant discuss with the system admin?

A. There is a risk of lookup data skew.

B. Account is a required field for Term.

C. There is a risk of account data skew.

11. Why might key stakeholders participate in a Salesforce Center of Excellence?

A. It standardizes the data definitions.

B. It ensures data is owned by one group.

C. It ensures feature requests will be implemented.

12. A school is implementing Salesforce with the Education Data Architecture (EDA) to track parents and students in a community. When a contact record is created, a Community user is created leveraging Table-Driven Trigger Management (TDTM). During deployment to production, the consultant notices that only the contact record is created.

Which step should the consultant verify when troubleshooting the issue?

A. Apex triggers were deployed successfully.

B. Declarative automations were deployed successfully.

C. The community was set to Active.

13. The Director of Advising wants to understand what students say are the most common reasons for scheduling advising appointments.

What should the consultant include in a report to meet the requirement?

A. Alert Reason

B. Case Reason

C. Appointment Topic

14. A large university is planning to release a new recruitment and admissions solution using Salesforce. The university is closely evaluating a launch window in conjunction with the campus calendar.

Where should the university confirm the Salesforce product release dates that could impact the timeline?

A. Salesforce+

B. Salesforce Trust website

C. Trailhead

15. A university is experiencing performance degradation issues such as record locking, long search times, and long record save times.

What is the likely cause for all of these issues?

A. Table-Driven Trigger Management (TDTM)

B. Data skew

C. Insufficient data storage

16. An Admissions office is using Education Cloud to manage its student application review process. The office needs to make sure students cannot edit applications after the submission deadline.

Which two features could the consultant use to meet this requirement?

A. Omnistudio Flexcard and validation rule

B. Standard Decision Matrix and custom trigger

C. Omnistudio Flexcard and sharing rule

17. A university is planning an enterprise-wide implementation of Education Cloud. It has asked the consultant to do an analysis of Education Cloud functionality to identify additional apps it may need to purchase.

What is a standard feature of Education Cloud?

A. Event Management

B. Order Management

C. Student Advising

18. An institution's Office of Career Services wants a solution that allows students to schedule appointments with any available counselor directly from a portal.

On which object is the availability configured?

A. Case

B. Goal Definition

C. Benefit Schedule

19. A consultant is writing an Apex class to run when a new Contact is created in a Salesforce environment where Education Data Architecture (EDA) is in use.

What should the consultant do to ensure the code executes in the order intended?

A. Go to EDA Settings to set the order of execution.

B. Edit the TDTM Trigger Handler Load Order Field.

C. Write an Apex trigger to set the order of execution.

20. An institution wants to consolidate efforts to track online engagement for its annual Giving Day on Facebook and Instagram.

Which solution meets this requirement?

A. Salesforce Inbox

B. Campaign Influence

C. Marketing Cloud

Answer: C

21. A consultant is making changes to compact layouts in the Education Data Architecture (EDA) and wants those changes to persist when a new release is pushed to the Salesforce environment.

Which step should the consultant take to accomplish this?

A. Edit the Mini Page Layout.

B. Assign the Mini Page Layout to all users.

C. Clone the EDA Compact Layout.

22. A university has a centralized IT team and a committee that oversees data governance and change management. Recruiters want access to Corporate Relations data. Corporate Relations wants access to Executive Education information. The Alumni Relations office wants to work with every department.

Which Salesforce environment strategy should the consultant recommend?

A. One Salesforce environment for Alumni Relations and a separate Salesforce environment for the other business units.

B. One Salesforce environment for all business units.

C. Separate Salesforce environments for each business unit.

23. A university uses the Education Data Architecture (EDA) to manage its prospective and current students. The student Contact Mailing Address fields and records are populated in Salesforce through an integration with an external system.

What should the consultant recommend?

A. Set the Default Account Model to Administrative.

B. Disable address-related Trigger Handler records.

C. Set record-level trigger firing based on the Account record type.

24. The Advancement office wants to replace its legacy system with Salesforce and has hired a consultant to help build a CRM strategy.

Which recommendation should the consultant make to meet this requirement?

A. Prioritize the organization's initiatives.

B. Implement Nonprofit Success Pack (NPSP).

C. Start solution design during a discovery session.

25. An elementary school has implemented the K-12 Architecture Kit in a new org using the Education Data Architecture. The school wants to be able to send SMS messages to parents.

Which solution should the consultant recommend to meet the requirement?

A. App on the AppExchange

B. Marketing Cloud Account Engagement

C. MuleSoft Anypoint Platform

26. Major gift officers at an institution are feeling overwhelmed by the large set of portfolios they have to manage. They want to send mass emails to constituents in their territories and automate donor prospect prioritization based on engagement and specified criteria.

Which solution should a consultant recommend?

A. Salesforce Flow

B. Omnistudio

C. Marketing Cloud Account Engagement

27. The Alumni Association is interested in using Education Cloud to support its operations. The Association tracks what engages alumni and their hobbies.

Which Education Cloud feature should the consultant recommend?

A. Relationships

B. Activity Timeline

C. Interest Tags

28. The director of graduate recruitment is interested in Education Cloud. Recruitment staff need to access Opportunity and Campaign Member Information about students. The IT director is concerned about costs and suggests using other license types for full-time recruitment users.

What should the consultant discuss with the client?

A. The business use case requires a Salesforce Platform license.

B. The business use case requires a full Salesforce license.

C. Education Cloud requires a Customer Community license.

29. A primary school needs to track which students receive assistance in their school lunch program.

Which Education Cloud feature should the consultant discuss with the school?

A. Benefit Schedule

B. Action Plan

C. Program Management

30. A university's Study Abroad office is getting ready to implement Salesforce to streamline internal processes. In the past, most of the work was done using spreadsheets.

Which metric should the consultant recommend to determine whether the implementation project is successful?

A. Number of student phone inquiries

B. Volume of emails to the office

C. Percentage of staff logins each month

31. A college is experiencing a disconnect between the Advancement and Finance departments which causes a delay in the allocation of donations. The college wants to synchronize fundraising data between these two offices.

Which solution should a consultant recommend?

A. Financial Services Cloud

B. Payment Services

C. Accounting Subledger

32. How should a consultant document risk for a customer in an Education Cloud implementation?

A. Configure an Alert to notify stakeholders.

B. Recommend a Center of Excellence.

C. Maintain a project health dashboard.

33. An Admissions office is interested in using Admissions Connect to manage its student applications and to receive supporting documentation.

How are application documents saved in Admissions Connect?

A. Action Plan Item

B. Document Type

C. Salesforce Files

34. A university is implementing a student community and rolling it out to 20,000 students. The IT manager is concerned about the large increase in users accessing the system at any one time.

Which step should the consultant recommend?

A. Leverage MuleSoft Anypoint Platform.

B. Log a case with Salesforce Support to Increase limits.

C. Identify areas that may impact governor limits.

35. Staff want to maximize the value of their Education Cloud org and CRM Analytics. They need a dashboard that tracks metrics, such as application status, the total number of applications, and how those totals compare to the previous period.

What should the consultant do?

A. Create a custom dashboard.

B. Leverage the Advisor Insights dashboard.

C. Leverage the Admissions Insights dashboard.

36. The advancement team uses Education Cloud for Advancement for its fundraising operations. The team wants a tool to help determine whether they will meet the campaign goal.

Which analytics tool should the consultant recommend?

A. Tableau Prep Conductor

B. Campaign Influence

C. CRM Analytics

37. Where can a primary school customer connect with other people to share insights on using Education Cloud?

A. Partner Community

B. Trailblazer Community

C. trust.salesforce.com

38. An Advancement office wants a declaratively configured, public-facing form that creates data in Salesforce.

Which solution should the consultant recommend to meet the requirement?

A. Process Builder

B. An app on the AppExchange

C. Email-to-case

39. The IT department at a university has asked its consultant to build a Salesforce integration strategy.

Which integration consideration should the consultant outline?

A. changed records per month

B. Sandbox environment

C. Salesforce license type

40. The IT department is determining its integration needs between a Salesforce implementation, its Student Information System (SIS), and its housing system. All students' contact information is sourced in the SIS. Students are required to report on-campus and off-campus housing mailing information into the SIS.

What is the integration direction between the systems?

A. One-way integration with the SIS to Salesforce

B. One-way integration with Salesforce to the SIS

C. One-way integration with the housing system to Salesforce

41. The Advancement office is evaluating the capabilities of Education Cloud. The office needs to ingest, harmonize, and analyze batch data from its Education Cloud org and other systems.

Which solution should the consultant recommend?

- A. Data Cloud
- B. Data Processing Engine**
- C. Flow with invocable action

42. A consultant is working with a university in Spain that will be using Education Cloud.

Which of these considerations about translating Education Cloud into Spanish should the consultant discuss with the university?

- A. Education Cloud picklist need to be translated manually.**
- B. Education Cloud picklist values are restricted to the organization's default language.
- C. Education Cloud picklist need to be replaced.

43. The Advancement office plans to use Salesforce and Marketing Cloud to engage its alumni, donors, and university supporters. The marketing staff and advancement officers want to retain all contact data and email activity, including individual Email Result (IER) data. The system admits and CRM team want to avoid unnecessary data storage.

Which data management strategy should the consultant consider?

- A. Create a Query Plan for old data.
- B. Use Data Studio to process old data.
- C. Implement an archiving strategy for old data.**

44. An academic advisor is preparing for a meeting with a student. The advisor wants to review the classes associated with the student's course of study to ensure the student is on track for graduation. The advisor plans to review the academic options with the student using Salesforce.

Which functionality should a consultant recommend?

- A. Affiliation
- B. Academic Program
- C. Pathways**

45. University department staff members want to track communication efforts and attendance for the annual commencement ceremony. They need to report on the engagement results of different types of communication methods (email, printed invitations, and so forth).

Which of these features should the consultant recommend?

A. Salesforce Inbox

B. Campaigns

C. Experience Cloud Audiences

46. A small college plans to use Salesforce for its student services. A part-time system admin has been working with a program coordinator who has previous Salesforce experience and is eager to work on the project.

What should the consultant recommend?

A. The program coordinator's role should be on top of the role hierarchy.

B. The program coordinator should be assigned the System Admin profile.

C. The program coordinator should be a Salesforce power user.

47. A primary school has implemented the K-12 Architecture Kit. The school needs to report out basic student demographic information.

What should the consultant do to meet this requirement?

A. Create a new student demographic dashboard.

B. Refer to the existing sample student demographic dashboard.

C. Add the Advisor Insights for Student Success dashboard.

48. The Advancement office is replacing its old CRM system with Salesforce. After creating its technology roadmap and fundraising timeline, the office realizes the new Salesforce environment may go live during a major capital fundraising campaign.

Which critical factor should the consultant identify?

A. Technical complexity

B. Resource availability

C. Staff cross-training

49. An institution is experiencing record locking and sharing performance issues in a Salesforce org with the Education Data Architecture (EDA). A consultant notices there are more than 10,000 child records associated to a single parent record.

Which object should the consultant review first?

A. Accounts

B. Affiliations

C. Relationships

50. A university works with business professionals through a continuing education program. Corporate recruiters work with employers to sponsor these programs.

Which object should recruiters use to track the progress of sponsorship requests?

A. Opportunity Contact Role

B. Learning Program Plan

C. Opportunity

51. The Student Services department wants a way for students and advisors to picture academic options more clearly and visualize degree requirements.

Which component should the consultant recommend to meet their needs?

A. Success Plans

B. Pathways

C. Path

52. A university wants to use Education Cloud for student advising and support services.

After enabling Education Cloud and Student Success, what should the consultant do next to set up the org?

- A. Check the permission set licenses.
- B. Enable Academic Operations.
- C. Turn on Care Plans.

53. The Executive Education department uses Salesforce to track sales of custom education programs to corporations and organizations. The department director needs to know the pipeline of custom programs and the account region.

How should the consultant meet this business requirement?

- A. Create a custom report type.
- B. Use an Opportunity report.
- C. Create an Opportunity list view.

54. A university Advancement office uses the Education Data Architecture (EDA).

Which EDA functionality should the Advancement office use to track historical data for targeted outreach and donation opportunities?

- A. Affiliation
- B. Attribute
- C. Relationship

55. The International Student Services department manages the needs of international and study-abroad students in Salesforce using Education Cloud. The residence hall address information must be associated to the international student Contact and Account records.

Which account model should the consultant select?

- A. Administrative Account
- B. Person Account

C. Standard Account

56. An education customer is interested in participating in an open-source commons community sprint project.

Which development consideration should the consultant advise?

A. Projects use CumulusCI for continuous integration and deployment.

B. Projects must be compatible with the Industry Common Features.

C. Projects are required to have at least one Salesforce staff person on the project team.

57. The Advancement department wants to extend its Salesforce environment to support event management.

Which solution should the consultant recommend?

A. Event Monitoring

B. Nonprofit Cloud

C. An app on the AppExchange

58. Career Services uses an event management system and Salesforce. It wants to integrate student data in Salesforce to identify engaged prospects by matching them with event attendance, career interest, and credit completion toward an academic major.

Which integration direction should the consultant recommend?

A. Two-way integration between the event system and Salesforce

B. Two-way integration between the event system and Student Information System

C. One-way integration between Salesforce and the event system

59. A system admin has an idea for a custom solution for their org and thinks it might be useful to others as well. The system admin discusses it with colleagues from two other schools. They are excited about the system admin's idea and offer to help.

What should the system admin consider doing as a next step?

A. Post the idea in the Trailblazer Idea Exchange.

B. Join the Open Source Commons & Community Spirits group in the Trailblazer Community.

C. Download and install the project from GitHub.

60. A consultant is considering disabling certain configurations to optimize the data import of a large volume of student records into a university's Salesforce environment with the Education Data Architecture (EDA).

Which configuration should the consultant retain during the data import?

A. Role hierarchy

B. Sharing rules

C. Workflow rules

61. A university is migrating from its Education Data Architecture org to Education Cloud.

Which consideration should the consultant discuss with the university?

A. Education Cloud uses the Household Account model.

B. Education Cloud uses Person Accounts.

C. Education Cloud uses the Administrative Account model.

62. Which object should be configured for all student and support staff interactions, activities, and assigned support staff?

A. Case

B. Relationships

C. Advising Poels

63. A business school will implement Salesforce for its MBA recruitment and admissions.

Which role should participate in the Salesforce Center of Excellence?

- A. Recruitment and admissions leader
- B. President of the university
- C. University technology vice president

64. A help desk at a large university wants to track and measure average resolution times and escalations associated with student requests for password resets.

Which solution should a consultant recommend?

- A. Einstein Next Best Action
- B. Digital Engagement
- C. Service Cloud

65. A college plans to implement Student Success Hub and wants to configure Pathways to support students in their academic journey.

What should be considered when implementing Pathways?

- A. Pathways uses Program Plan and Plan Requirement records.
- B. There is a limit to the number of Plan Requirement records.
- C. There are only two levels of Program Plan requirements in Pathways.

66. A university needs a mass communication marketing tool to send emails to students notifying them when their applications are missing items.

Which solution should the consultant recommend?

- A. Custom automation with an email alert
- B. Digital Engagement Messaging
- C. Marketing Cloud

67. A university plans to use Salesforce to manage its recruitment and admissions process. A prospective student goes through four maturation stages: Suspect, Prospect, Applicant, and Matriculated. IDs are assigned by the Student Information System (SIS) at the Applicant stage.

In which stage is Salesforce the system of record?

- A. Suspect
- B. Applicant

C. Matriculated

68. University Investment Services (UIS) is an internal department that manages the university endowment through financial investments. It operates independently of the university and only works with investment companies and financial institutions. UIS is interested in a CRM that will track investment companies, its company Contacts, Leads, Opportunities, and Activities.

Which solution should the consultant recommend?

A. Financial Services Cloud

B. Education Cloud

C. Sales Cloud

69. A school administrator wants to understand how students are performing and where additional support may be needed in the future.

What could the consultant recommend to meet the requirements?

A. Actionable Segmentation

B. Director Insights Dashboard

C. Academic Operations App

70. A university wants to track the biology 101 class for next semester. The class will be held on Tuesdays and Thursdays from 3:00-4:00 PM in Lecture Hall A, and on Wednesdays and Fridays from 1:00-2:30 PM in the adjacent lab facility.

Which object should a consultant use to meet this requirement?

A. Program Enrollment

B. Academic Team

C. Course Offering Schedule

71. A school of engineering is interested in Salesforce. There are several other Salesforce environments across the university with varying degrees of usage and configuration. The university is largely decentralized where schools operate independently of each other and often in silos. There is high turnover in staff and leadership.

Which Salesforce environment strategy should the consultant recommend?

A. The school of engineering should have its own Salesforce environment.

B. The school of engineering should initiate a Center of Excellence (CoE).

C. The university should consolidate all of the Salesforce environments.

72. A university's IT department needs to integrate academic degree data, such as a Bachelor of Arts in Economics, into Education Cloud.

Which set of Education Cloud objects should the consultant use?

- A. Learning and Learning Program
- B. Contact and Learner Program
- C. Account and Learning Program Plan

73. A university plans to use Salesforce for its recruitment and admissions process and needs to integrate it with the Student Information System.

Which step should the consultant take initially?

A. Disable Trigger Handler records.

B. Define the process.

C. Use the Data Import Wizard.

74. An institution's Admissions office needs a solution to help recruiters manage their travel, including route planning. The office also wants the ability to identify students' locations so they can be invited to a recruitment event.

Which solution should the consultant recommend to meet these requirements?

A. Salesforce Maps and an AppExchange solution

B. Field Service

C. Territory Management

75. A university's Alumni Relations office is replacing its legacy system with Salesforce. The consultant needs to load a large volume of alumni Contact records into a new Salesforce environment.

Which action should the consultant take?

A. Set the Account and Contact's sharing to Public Read/write before the data load.

B. Load record owners after the Account and Contact data load is complete.

C. Set the Account and Contact's sharing to Private before the data load.

76. Why might key stakeholders participate in a Salesforce Center of Excellence?

A. It ensures data is owned by one group.

B. It ensures feature requests will be implemented.

C. It establishes investment in CRM.

77. The Marketing department at a college emails alumni twice a year to inform them of upcoming fundraising events. The department is concerned about the number of bounced emails it receives.

Which solution should the department consider that will allow alumni to update their email addresses?

- A. Marketing Cloud
- B. Web-to-Case
- C. Experience Cloud

78. The Recruitment and Admissions officer wants to use Salesforce to track prospective students, recruitment events, student applications, digital engagement, and interactions with prospects on their mobile devices. Prospective students communicate via SMS on their mobile devices, social media, and email.

Which solution set should the consultant recommend?

- A. Activity timeline, Marketing Cloud, and a third-party app
- B. Third-party app, Salesforce Maps, Accounting subledger
- C. Einstein Note, Salesforce Maps, Marketing Cloud

79. A university plans to expand its Salesforce Education Cloud environment to support student services for all of its schools. The university wants to track a student's family information.

Which action should the consultant take?

- A. Configure Constituent Roles.
- B. Leverage Contact Relationships.
- C. Leverage Contact Profiles.

80. A university is interested in seeing insights and analytics for Advisors and their Advances.

Which views are included with Education Cloud's CRM Analytics Education Analytics package?

- A. Director Insights for Advisor Success & At-Risk Student Warning Center
- B. Director Insights for Student Success and Advisor Insights for Student Success
- C. Student Absences and Behavioral Involvement

81. A school for continuing education needs to track program costs within its budget and related revenue streams each program brings to the school.

Which Education Cloud feature should the consultant consider?

- A. Grantmaking
- B. Program Management
- C. Accounting Subleader

82. The Executive Education department plans to use the Education Data Architecture (EDA) for prospective and current students. The system admin wants to map prospects and students' employers to the standard Account field in Salesforce.

Which action should the consultant recommend instead?

A. Select Organization as the Default Account Model in EDA Settings.

B. Populate the employer Affiliation record in the Primary Business Organization field.

C. Populate the employer Account record in the Primary Business Organization field.

83. A school district wants to use the Student Success app to track student information such as grades and interactions with parents.

Which consideration about the app should the consultant discuss with the school district?

A. It is built on Education Cloud.

B. It requires Experience Cloud.

C. It is built on Nonprofit Cloud.

84. Staff need to manage a student's application requirements.

Which Education Cloud object should be used?

A. Educational Info Request

B. Learning Program Plan Requirement

C. Individual Application Task

85. A university has a Study Abroad office that is required to collect student documentation such as visa, passport, vaccination, and other information. The university is using a spreadsheet to manage this information and wants to track it in Salesforce.

Which Education Data Architecture (EDA) object should a consultant use to meet this requirement?

A. Program Plan

B. Affiliation

C. Attribute

86. The Financial Aid department of a college uses Education Cloud. Students need the ability to schedule an appointment with any financial aid advisor.

Which object should the consultant configure in Education Cloud to meet this requirement?

A. Success Teams

B. Public Groups

C. Contact-Contact Relationships

87. A university wants a Salesforce solution that manages student applications and application reviewer assignments.

Which solution should the consultant recommend?

A. Program Management

B. Case Management

C. Education Cloud

88. A university's Marketing department works on email campaigns for advancement. It wants to measure campaign effectiveness, return on investment, and opportunity conversion using standard Salesforce functionality.

What should the consultant recommend to meet this requirement?

A. Parent campaigns

B. Campaign member

C. Campaign influence

89. A university plans to implement Salesforce. The project lead is drafting a communication plan and has asked the consultant to provide examples of communications to send after implementation.

Which communication example should the consultant recommend?

A. Post go-live recap

B. Drop campaign

C. Project sponsor profile

90. A consultant needs to import a large volume of records into a university's Salesforce production environment that has the Education Data Architecture (FDA). The import file already defines Account and Address information. The university's environment has a private sharing model and several sharing rules.

Which of these temporary actions should the consultant take before importing the data?

A. ○ Disable unnecessary code using table-driven trigger Management (TOTM).

B. ○ Change the account model to Household.

C. ○ Disable sharing rules using TOTM.

91. An Admissions office is interested in evaluating historical trends of its applicants for a better understanding of its applications yield and melt.

What should the consultant advise?

A. Leverage an existing sample Admissions report.

B. Use the Admissions Insights dashboard.

C. Create a custom report type.

92. A university system purchased Salesforce and wants to move to an enterprise model for all of the schools in the system. The university needs to track students both as individuals and as part of a household. The Recruitment and Admissions office also wants to track events, the event locations, and the event vendors.

Which account model should the consultant recommend?

A. Standard Account Model with Account-Contact Relationships to a Business Account (Household)

B. Person Account Model with Account-Contact Relationships to a Business Account (Household)

C. Person Account Model with Account-to-Account Relationships to a Business Account (Household)

93. The director of advancement at a small college requests report access for a dozen alumni volunteers who will call potential donors. The volunteers will use Experience Cloud for Learner Success licenses. The consultant has set up a profile for the volunteers.

What should the consultant set up so the volunteers can create and edit reports as external users?

A. Create a volunteer public group and a sharing role that grants Read permissions to reports.

B. Create a new role for the volunteers in the role hierarchy, and grant permissions to Create and Customize Reports.

C. Enable the Create and Customize Reports, Report Dulldec, and Edit My Reports permissions on the Volunteers' profile.

94. What should a consultant recommend to a university that wants a successful data governance committee?

A. Set up a Salesforce Adoption Dashboard.

B. Use a RACE matrix to define member roles.

C. Create a Center of Excellence queue.

95. A college is using Salesforce to support its recruitment and admissions processes. The college will need to have an online application form, automated bot service, and online application management.

Which solution should the consultant recommend?

A. Digital Engagement

B. Admissions Connect

C. Interaction Studio

96. A customer wants to learn more about solutions built by the community.

Which resource should a consultant recommend?

A. Trailblazer Community: Cumulabct1 (CCL)

B. Product Documentation: Is a Pro Bono Project the Right Fit?

C. Trailblazer Community: Open Source Commons & Community Springs

97. The university advancement team wants the ability to track alumni degrees.

Which Education Cloud feature should the consultant recommend?

A. Highlights Panel

B. Academic Credentials

C. Learner Program

98. A customer is already using Salesforce and wants to move to Education Cloud.

What should a consultant ensure they consider?

A. Education Cloud is only available for educational institutions.

B. Enabling Education Cloud requires opening a case with Salesforce.

C. Education Cloud uses Person Accounts.

99. A university needs to track details about a student's registration in an academic program or course of study, including information about registration dates, status, and credits earned.

Which object in the Education Data Architecture (EDA) contains this type of summary academic data?

A. Course Offering

B. Program Enrollment

C. Program Plan

100. A university wants to improve student retention by developing a tool for students to engage at scale, find answers to common questions and resources, and interact with student organizations.

What should a consultant recommend to meet this requirement?

A. Einstein Basis

B. Experiences Cloud

C. Interaction Studio

101. A Career Services department plans to implement Salesforce. The consultant is preparing for the discovery session with the director and advising staff.

Which question should the consultant ask during the discovery session?

- A. What is the estimated project budget?
- B. Which users need system admin access?
- C. What are the success metrics for the project?

102. A college plans to use Salesforce and Marketing Cloud Account Engagement as its system of record for student recruitment. Prospect data in Salesforce can come from an imported list, be manually entered by a recruiter, or be submitted through an integrated online form.

Which action should the consultant recommend?

- A. Validate the data through a match and de-duplication process.
- B. Migrate the data from Salesforce to Marketing Cloud Account Engagement through a manual import.
- C. Create a custom integration from Salesforce to Marketing Cloud Account Engagement.

103. An Admissions department is evaluating data analytics tools to help determine the likelihood that accepted students will enroll at its school.

Which solution should the consultant recommend?

- A. Einstein Next Best Action
- B. Einstein Prediction Builder
- C. Tableau Prep Builder

104. The Accessible Education office needs to track accommodations made for students with accessibility needs.

How should the consultant design the Salesforce environment to meet the requirement?

- A. Leverage Cases.
- B. Leverage Person Disabilities.
- C. Set up Contact points.
