Which three Partner Relationship Management features should the system administrator utilize on UMS's site?

- A. Service Console
- B. Lead Distribution
- C. Market Development Fund
- D. Deal Registration
- E. Content Flagging

Question 2

Choose 3 options.

Dreamscape Flowers is looking to launch a public site for its current customers and prospects.

Which three actions are performed automatically when a site is created using Experience Cloud?

- A. Creation of sharing mechanisms that are available only to guest users
- B. Creation of a guest user record
- C. Creation of a guest profile
- D. Creation of moderation criteria that are applied only to guest users
- E. Creation of a guest role

Question 3

Choose 1 option.

Insightopia is planning to create a high-performance site for its partners. The Home page will feature multiple custom components that will provide insights and trends along with near real-time updates.

Which template should Insightopia consider for its site?

- A. Build Your Own (LWR)
- B. Customer Account Portal
- C. Help Center
- D. Partner Central

Question 4

Choose 1 option.

An administrator for Cloud Kicks wants to create a new partner user for an existing sit

Which step does the administrator need to perform right before providing user details and saving the user record?

- A. Ensure that the account is enabled as a partner account, then click "Enable Partner User" on the contact detail pag
- B. Click "Manage Partner User" on the Account detail **page**, then click "Enable Partner User".
- C. Click "New" on the User Setup page in Lightning Experienc
- D. Click "Manage Partner User" on the Contact detail page, then click "Enable Customer User".

Question 5

Choose 1 option.

Cloud Kicks (CK) uses 550 (Single Sign-On) for its customer portal. The customer portal is built on the Customer Service template which uses LDS (Lightning Design System) and has public pages that use Lightning Web Components. CK has also set up the Salesforce Content Delivery Network (CDN) for its domain, which CK is planning to chang

What is a potential impact of changing the Salesforce CDN?

- A. Changing the Salesforce CDN impacts definitions of all Lightning Web Components used in public pages.

- B. Changing the Salesforce CDN affects SAML SSO settings for all custom URLs in that domain.
- C. Changing the Salesforce CDN overwrites LDS defaults.
- D. Changing the Salesforce CDN impacts the AppExchange packages in the org that use Documents object.

Question 6

Choose 2 options.

Dreamscape Flowers (DF) has a community for its flower growers. DF now wants to create communities for its franchisee network as well as direct B2C customers as part of a company-wide digital transformation. Other subsidiaries of DF are also undergoing digital transformation and are interested in setting up similar communities based on DF's approach.

In what two ways can Lightning Bolt help DF accomplish this?

- A. Lightning Bolts can be distributed and reuse
- B. Lightning Bolts can help organize, manage, and reuse digital content.
- C. Lightning Bolts can help minimize licensing and provisioning cost.
- D. Lightning Bolts can help reduce implementation tim

Question 7

Choose 1 option.

Universal Containers (UC) is building a new self service site for its large global customer base. Customers will be posting questions, viewing Knowledge articles, downloading warranties, opening tickets, and registering their recent purchases. Purchases are stored in a custom object. UC is considering using the Customer Service template for the site and External Apps license for the customers.

Which limitation could cause a potential issue for UC?

- A. External Apps license does NOT download documents out-of-the-box.
- B. External Apps license does NOT allow self-registration.
- C. External Apps license does NOT allow access to cases.
- D. External Apps license does NOT allow access to custom objects.

Question 8

Choose 1 option.

Northern Trail Outfitters (NTO) is building a digital experience for its independent researchers who will be collaborating with NT staff and other researchers on their research work.

Which user visibility setting needs to be enabled at a minimum?

- A. Site User Visibility
- B. Portal User Visibility**
- C. None
- D. Guest User Visibility

Question 9

Choose 2 options.

The mission of No More Homelessness (NMH) is to help advocate end homelessness using its Experience Cloud site. NMH's site manager wants to set up search engine optimization (SEO) to ensure NMH's public Experience Cloud site is visible to search engines.

Which two practices does the site manager need to do to ensure SEO is implemented successfully?

- A. Check whether the Experience Cloud site is public and activate**
- B. Check whether the SEO Institute has provided the approval for the site with end date
- C. Check whether a custom robots.txt file to control indexing has been created**
- D. Check whether manual sitemap refresh happens on the last day of every month.

Question 10

Choose 1 option.

Cloud Kicks (CK) recently launched three Experience Cloud sites for North America, Europe, and Asia Pacific regions. The community managers have installed a Salesforce Communities Management package and are getting useful insights on peer-to-peer collaboration and engagement. During the community managers weekly meeting, the community manager for Europe mentioned that the preconfigured insights reports cannot be used for their Experience Cloud site.

What is the reason for this issue?

- A. The preconfigured insights reports need to be modified to meet GDPR requirements.
- B. The community manager for Europe does not have system administrator privileges.
- C. The Experience Cloud site for Europe has more than a million users.
- D. The Experience Cloud site for Europe is not using Chatter which is needed to use the preconfigured Insights reports.

Question 11

Choose 1 option.

AW Computing is using the Build Your Own (LWR) template to create a site for its customers. The site will showcase blog posts written by AW Computing thought leaders.

Which component should the site creator use to dynamically populate the site with blog posts as new ones are added?

- A. CMS - Single
- B. Grid component with list views
- C. CMS Connect (JSON)
- D. Grid component with CMS Collections

Question 12

Choose 3 options.

Dreamscape Flowers (DF) is a well-known global brand with a large network of partners in various regions. DF currently has a number of manual processes with varied complexity. Some of these processes involve partner lifecycle management that DF is looking to automate as part of a broad digital transformation initiative.

In what three ways can Salesforce Partner Relationship Management (PRM) help DF?

- A. Digitizing historical content
- B. Helping partners manage their payments and file taxes
- C. Preventing channel conflict
- D. Providing reports and dashboards access to partners
- E. Automating partner onboarding process

Question 13

Choose 2 options.

Cloud Kicks has packaged its Customer Support Community. The community includes navigation menu items that link to standard and custom objects.

Which two points should the Experience Cloud consultant consider when reviewing the package?

- A. Custom list views for standard objects are included as dependencies.
- B. Custom list views for custom objects are included as dependencies.
- C. Custom list views for custom objects are not included as dependencies.
- D. Custom list views for standard objects are not included as dependencies.

Question 14

Choose 1 option.

What is the most efficient way that a Salesforce Admin can create a single Experience Cloud Site user from a Contact?

- A. Use Data Loader to add the Contact in Salesforce as a Customer user.
- B. Enable the Contact in Salesforce as a Customer user.
- C. Enable the Account as a Customer Account so all Contacts in that Account become Customer users.
- D. Email the Contact a link to the Self-Registration page for the site

Question 15

Choose 1 option.

Which Lightning App Builder component informs support agents working in the Service Console what actions a customer has taken on an Experience Cloud site?

- A. Einstein Customer
- B. Customer Insights
- C. Experience Tracker
- D. Community View

Question 16

Choose 1 option.

Universal Containers is looking to onboard three new partners to the community.

- Each partner should have a branded experience containing their colors and logo.
- Gold and Silver partners should have access to the Leads Inbox component, but Bronze partners should not.
- Bronze partners should not have access to the Leads ta

How should an administrator solve for these requirements?

- A. Create branding sets, audience targeting, and a custom Navigation Menu component.
- B. Create branding sets, audience targeting, and navigation menu targeting.
- C. Create a separate community for each partner with audience targeting.
- D. Create branding sets, a separate page variation for each partner, and a custom Navigation Menu component.

Question 17

Choose 2 options.

A consultant for Cloud Kicks (CK) is asked to build a site for CK customers. As part of this site, a custom object will be used to manage customer subscriptions. These subscriptions will need to leverage advanced sharing rules to ensure that only appropriate customers can see these subscriptions.

Which **two** user license types should be granted to customers to support this sharing requirement?

- A. Customer Community User
- B. Partner Community User
- C. Customer Community Login User
- D. Customer Community Plus Login User

Question 18

Choose 3 options.

The system administrator at Cloud Kicks (CK) wants to delegate tasks to a colleague to ease their workloa

Which three permissions are included for a delegated administrator?

- A. Reset passwords for external users.
- B. Manage object access for external users.
- C. Manage permissions sets for external users on their account.
- D. Add external users to multiple accounts.
- E. Create and edit external user records.

Question 19

Choose 1 option.

Ursa Major Solar (UMS) uses a third party to manage low severity tickets using its legacy system. Sometimes, third-party agents have to create cases on behalf of UMS customers.

Which user license should the implementation practitioner recommend for third-party staff?

- A. Partner Community
- B. Customer Community Plus
- C. Customer Community
- D. Customer Identity

Question 20

Choose 2 options.

Universal Containers (UC) is planning to create a portal for its global partner network. Users will be assigned a Partner Community license and a role

Which two things should UC keep in mind when setting up partner roles?

- A. Once created, roles cannot be delete
- B. Unused roles can be delete
- C. Role Hierarchy can only be used if all objects have external OWD set to Privat
- D. The default limit for the number of roles for portals is 50,000 per org.

Question 21

Choose 1 option.

No More Homelessness (NMH) recently launched a public site. The Support team has received feedback that some of the articles aren't showing up in the search results for unauthenticated or guest users.

How can NMH ensure that articles are shared with all guest users?

- A. Select "Visible in Public Knowledge Base" at the article level.
- B. Create a custom profile for Public access.
- C. Select "Public" organization-wide default for the article type at the org level.
- D. Create a custom permission set for Public access.

Question 22

Choose 2 options.

In which two ways can Opportunities be shared with a Community User?

- A. Add a Customer Community Plus profile to a Sharing Set and add Opportunities as an object in the Sharing Set.
- B. Add a Partner Community profile to a Sharing Set and add Opportunities as an object in the Sharing Set.
- C. Create a criteria based sharing rule with a Partner Community role.
- D. Create an owner-based sharing rule with a Customer Community User.

Question 23

Choose 3 options.

Which three topic types can be used in an Aura site?

- A. Standard Topic
- B. Featured Topic
- C. Navigational Topic
- D. Deleted Topic
- E. Content Topic

Question 24

Choose 1 option.

Northern Trail Outfitters (NTO) would like to create a public Knowledge base for the general public to be able to view articles, manuals, and FAQs.

Which template should NTO select when building its site?

- A. Partner Central
- B. Help Center
- C. Customer Service
- D. Customer Account Portal

Question 25

Choose 3 options.

Northern Trail Outfitters (NTO) reports that 50% of calls to its support line are for repeatable issues.

Using standard out-of-the-box functionality, in which three ways can NTO decrease its call volume using an Experience Cloud site?

- A. Deploy a chatbot to address common questions.
- B. Create a public "announcements only" group to address common questions.
- C. Create an FAQ Knowledge article
- D. Create an FAQ rich text component on the Home page
- E. Enable Chatter Questions to encourage peer to peer self service

Question 26

Choose 2 options.

DreamHouse Realty is planning to launch a digital experience for its partners where they will be able to pick a Lead from shared leads and start working toward getting the lead converted into an Opportunity.

Which two steps are part of setting up Lead Sharing or Lead Distribution for partners?

- A. Create Page Layouts for Lead Distribution.
- B. Create Assignment Rules for Lead Distribution.
- C. Configure Lead Creation and Lead Distribution inside PRM Workspace
- D. Enable "Allow External Lead Sharing" in Digital Experience settings.

Question 27

Choose 2 options.

What are two Salesforce recommendations for setting up partner roles in large orgs?

- A. Create partner roles in a separate branch in your Role Hierarchy.
- B. Grant partner users access to the partner account using a Sharing Rule.
- C. Increase the number of roles to two to increase collaboration.
- D. Create partner roles in the same branch in your Role Hierarchy.

Question 28

Choose 1 option.

Ursa Major Solar would like to use three Record Detail components on a page to display object details for the Account, Case, and Opportunity objects for the user who is logged in to the company's portal. When they drop the components on the page, they are not getting the desired results.

What is causing this issue?

- A. The Record Detail component populates the recordID associated with the object for the page template, so this component will only work on the Home page template.
- B. The Record Detail component will only show record details for the Case object.
- C. The Record Detail component is a custom component and was not configured correctly.
- D. The Record Detail component populates the recordID associated with the object for the page template, so this component will not work for this use case.

Question 29

Choose 1 option.

Universal Containers (UC) is implementing a community for its retailers.

How can UC give retail store managers access to the records owned by their peers and subordinates?

- A. Email retail managers best practices on how to manually share data.
- B. Give retail managers Super User access.
- C. Set OWD to public, and manage access via Apex Sharing.
- D. Put retail managers in a manager role.

Question 30

Choose 2 options.

The Experience Cloud site manager of Cloud Kicks has enabled reputation for its community members. As per the recommendation given by the Experience Cloud consultant, a decision was made to use the out of the box features.

Which two things happen automatically when the site manager enables automation?

- A. Default point system and set of reputation levels become available
- B. Customer portal members gain the ability to provide badges to other members.
- C. Inactive and active members are assigned default reputation points.
- D. Chatter influence is removed from the Contribution section on the Profile page

Question 31

Choose 2 options.

Universal Containers (UC) wants to create a self-service site for its existing and prospective customers. The site will contain articles, blogs, manuals, and FAQs. Users will be able to ask questions and answer other users' questions on the site.

Which two Experience Cloud features should UC focus on as it starts building out the site?

- A. Public Site Connect
- B. Guest user and public access settings
- C. Document Library Model (DLM)
- D. Feeds

Question 32

Choose 1 option.

Universal Containers (UC) maintains multiple customer-facing sites, but only one profile for all customer users. No customer has access to more than one site.

Which step should the UC system administrator take to grant customers access to the appropriate site?

- A. Create and assign a permission set to the users and sites

- B. Enable the Customer Identity profile or permission set.
- C. Assign the profile to the site membership.
- D. Add user to the All Customer Portal Users public group.

Question 33

Choose 2 options.

Which two statements regarding data categories are true?

- A. Translated articles will NOT follow the original article data category. Therefore, translated articles can be assigned to a different data category.
- B. Child roles cannot see more data categories than their parent role. If the parent role's visibility is reduced to be less than the child's, the child role's category visibility is reset to its parent's category visibility.
- C. Customer Portal users and partner portal users inherit data category visibility settings of the role assigned to their account (owner) managers by default.
- D. When a category is made visible to a user through custom settings or is made visible by default, its child and parent categories are not included.

Question 34

Choose 1 option.

Universal Containers (UC) would like to create a site for its existing customers. The site will contain articles, manuals, and FAQs. The site will also contain access to UC's Contracts object specific to each customer and the ability for customers to update their billing information, requiring them to log in to the site to access any information.

Which template should UC select when building its site?

- A. Customer Service
- B. Customer Account Portal
- C. Partner Central
- D. Help Center

Question 35

Choose 2 options.

Ursa Major Solar would like to make an external user a Site Moderator.

What are two of the several moderation permissions available to assign an external user in order for them to be a Site Moderator?

- A. Access Sharing Sets
- B. Manage Experiences
- C. Manage Setup
- D. Access Experience Management

Question 36

Choose 1 option.

The system administrator at Cloud Kicks (CK) has deactivated their Experience Cloud site to do some maintenance and cleanup.

How should the administrator ensure that CK customers do NOT receive a welcome email when the site is once again active?

- A. Remove all profiles from the site's membership and add them again after the site is activate
- B. Use the new Service Not Available (SNA) featur
- C. Use Data Loader to remove all members' email addresses.
- D. Disable the Send welcome email checkbox for the sit

Question 37

Choose 2 options.

Which two Community licenses allow records to be shared with a criteria based sharing rule?

- A. Customer Portal
- B. Customer Community Plus
- C. Customer Community
- D. Partner Community

Question 38

Choose 1 option.

Universal Containers (UC) has a customer portal so that customers can manage their shipping. UC has several sharing rules in place and uses the External Account Hierarchy to assist with data access in its biggest customers. One of UC's large customers, Cloud Kicks, has recently acquired Northern Trail Outfitters. Sales wants to merge these two accounts, but they are getting an error.

What could be the cause of the error?

- A. Accounts used in an External Account Hierarchy cannot be merged with another account.
- B. The user trying to merge the accounts does not have the Merge Portal Roles permission.
- C. Accounts with active Experience Cloud users cannot be merged with another account.
- D. The user trying to merge the accounts does not have the System Administrator profile

Question 39

Choose 1 option.

Universal Containers (UC) has a B2C customer department that uses person accounts to track and manage all B2C customers. UC has set up a B2C site using Salesforce Experience Cloud. The VP of B2C business wants to enable self-registration on the portal so customers can create their own user accounts.

What should the Experience Cloud consultant at UC recommend so that the new users self-registering on the B2C site are captured as person accounts in Salesforce?

- A. Use the standard self-registration configuration under Experience Workspace and leave the default Account field empty.
- B. Create a custom self-registration page and Apex handler that creates a person account for each user self-registering on the portal.
- C. Use the standard self-registration configuration under Experience Workspace that assigns users to a default business account, and then build a trigger on Account to create person accounts for each user.
- D. Restrict the Account record type access to Person Account record type only for the Site Guest User, so any account created is by default a person account.

Question 40

Choose 2 options.

Ursa Major Solar would like the navigation menu in its customer portal to be vertical.

Which two options make this possible?

- A. Edit the default navigation.
- B. Download an app from the AppExchange
- C. Write custom code
- D. Fix the header's position.

Question 41

Choose 2 options.

Ursa Major Solar is utilizing audience targeting for specific components in its portal.

Which two considerations regarding audience targeting are true?

- A. You can only have three audiences.
- B. Available domains are created in the Administration workspace and associated with a community through a custom URL.
- C. Audiences are unable to be assigned to the components in the template header and footer sections.
- D. Record-based criteria are unable to be assigned to a component or branding set.

Question 42

Choose 1 option.

Cloud Kicks (CK) wants potential customers to use self registration to sign up and gain access to its new site. CK uses Person Accounts for its customers.

How should the CK system administrator configure self-registration?

- A. Leave the Account field blank.
- B. Create a flow to convert the Contact to a Person Account.
- C. Create a trigger on User to convert the Contact to a Person Account.
- D. Set the profile to the standard Person Account profile

Question 43

Choose 1 option.

By defining roles, permission sets, or profiles, Knowledge **article** visibility can be controlled by using which functionality?

- A. Data Category Visibility
- B. Org-Wide Defaults
- C. Content Management
- D. Automatic Topic Assignment

Question 44

Choose 1 option.

Universal Containers' (UC) Salesforce org uses SAML 550 with a third-party identity provider for internal user authentication. UC now wants to extend this capability for Experience Cloud site users as well.

What should the system administrator do to successfully implement SAML SSO for the Experience Cloud site?

- A. Use the site login URL as an endpoint where SAML assertion is made
- B. Create a Visualforce page that receives and validates the SAML assertion.
- C. Register the Experience Cloud site as an Identity Provider in SAML settings.
- D. Create a Connected App with custom attributes before configuring SAML settings.

Question 45

Choose 2 options.

Ursa Major Solar (UMS) is automating its business processes using Salesforce UMS wants its Platinum partners to be able to approve installation projects and deals.

In which two ways can UMS accomplish this?

- A. Assign external users Super User access on records and create a digital experience for those users.
- B. Assign external users as the co-owners on records and create a digital experience **for** those users.
- C. Add external users directly to approval queues and create a digital experience for those users.
- D. Assign external users **as** approvers on records and create **a** digital experience for those users.

Question 46

Choose 1 option.

Ursa Major Solar (UMS) is using the Customer Account Portal template where both customers and employees can log in to view information about the company. UMS would like the Home page to showcase internal resources at the top for its employees, and would like self-help resources to be available for logged-in customers. UMS wants to exclude employee resources from the layout. of the Home page when customers are logged in.

Which functionality should UMS utilize to showcase the Home page in different ways?

- A. Sharing Sets
- B. Case Feeds
- C. Page Variations
- D. Developer Console

Question 47

Choose 1 option.

Ursa Major Solar (UMS) has seen exponential growth in recent years. The incoming call volume to the support center has gone up exponentially as well, and is now reaching unmanageable levels.

What should UMS consider to help the situation?

- A. Create a peer-to-peer forum using Self Service templat
- B. Create a smart queue router using Service Cloud templat
- C. Create virtual support agents using Chat Bot templat
- D. Create a self-service community using Customer Service templat

Question 48

Choose 1 option.

Ursa Major Solar (UMS) would like authenticated Experience Site users to see cases, quotes, contracts, and Knowledge articles appear in search results, but the Search Results component is only returning Knowledge articles.

How should UMS configure its search results to yield the desired results?

- A. On the Home page, in the property editor for the Hero component, adjust the Hero Type to "Call to Action" instead of "Search".
- B. On the Search page, switch the Search Results component with Global Search Results and select the appropriate objects in the property editor.
- C. In Salesforce Setup, under the Experience Site users' profile, adjust the system permissions to allow for multiple objects in search results.
- D. On the Search page, select the appropriate objects in the property editor for the Search Results component.

Question 49

Choose 1 option.

Ursa Major Solar would like content from Salesforce CMS to be queried when users search for keywords in its customer portal.

Which setting must be turned on in order for Global Search in Experience Builder to query content in Salesforce CMS?

- A. Gather Customer Insights Data must be selected
- B. Search must be enabled for the selected CMS Channel.
- C. Sharing Rules must be set to Read/Write
- D. Community must be activated

Question 50

Choose 2 options.

DreamHouse Realty (DR) recently created a site for potential buyers. DR has a rich knowledge base organized in data categories and now plans to make those Knowledge articles available to site users.

Which two steps does DR need to take in order to ensure that new articles show up in the site on an ongoing basis without manual intervention?

- A. Map topics to data categories.
- B. Enable "Share on Sites" setting.
- C. Enable "Automate Topic Assignment" setting.
- D. Map articles to Content Topics.

Question 51

Choose 1 option.

A manager at Ursa Major Solar is responsible for creating and editing only the community users for the Partner Community they have recently set up using Experience Cloud. However, the manager is able to make organizational changes to the user records of the internal users as well.

What could be the possible issue here?

- A. The manager has been given the Manage User permission.
- B. The manager has been given the Manage Customer Users permission.
- C. The manager has been given the Manage Profiles and Permission Sets permission.
- D. The manager has been given the Manage External Users permission.

Question 52

Choose 1 option.

The administrator of the Universal Containers customer site has been making changes in a sandbox and needs to push the changes to production. The administrator is comfortable with point and click changes but is not comfortable with managing code or more technical items.

How should the administrator ensure the changes make it accurately to production?

- A. Create a change set, upload it to production, and deploy the change set.
- B. Rebuild the site from scratch in production.
- C. Use the ExperienceDeploy API to push the site to production.
- D. Use Data Loader to migrate the site from sandbox to production.

Question 53

Choose 1 option.

Cloud Kicks has noticed its new Experience Cloud site is taking a long time to load.

Which tool should the system administrator use to troubleshoot the problem?

- A. Salesforce Community Page Optimizer
- B. Cloud Network Optimization Bolt

- C. Lightning Page Maximizer
- D. Experience Cloud Performance Profiler

Question 54

Choose 2 options.

The Salesforce Administrator at Ursa Major Solar is trying to create a partner user for their Partner Community that was built using Salesforce Experience Builder. However, the admin is not able to create it from the contact record.

What could be two reasons causing this issue?

- A. The account record associated with the contact record is not enabled as a partner.
- B. The Salesforce Administrator is not assigned a role in Salesforce.
- C. The Salesforce Administrator is not a member of the Partner Community.
- D. The Salesforce Administrator is not marked as a delegated administrator on the partner account.

Question 55

Choose 1 option.

Cloud Kicks (CK) has a subscription model to send new sneakers to customers every month. Customers log in to the CK site, where they can manage their accounts, manage and create cases, and submit refund claims. CK also provides access to articles from its Knowledge base.

Which template should CK use to **give** customers the access they need?

- A. Build Your Own
- B. Account Portal
- C. Microsite
- D. Help Center

Question 56

Choose 1 option.

Northern Trail Outfitters has an Experience Cloud site using the Customer Service template. They have noticed that many questions take a long time to receive a response or go completely unanswered.

Which functionality would allow questions to get internal visibility?

- A. Tell users to submit a case for unanswered questions.
- B. Create moderators for each topic.
- C. Limit the number of questions posted per day.
- D. Enable Escalate to Case.

Question 57

Choose 3 options.

Which three considerations should be made when using Criteria-Based Audiences?

- A. Components in the template header and footer sections cannot be assigned to an audience.
- B. Salesforce must be contacted if you need to use the domain criteria in sandbox or Developer Edition orgs.
- C. Record Type criteria cannot be assigned to a component.
- D. Domain criteria are not available in sandbox or Developer Edition orgs.
- E. Up to 2,000 audiences can be created.

Question 58

Choose 3 options.

Ursa Major Solar (UMS) is creating a partner portal to distribute leads to partners. Partners can also create their own leads in the portal. UMS has decided to use the Partner Central template.

Which three steps should UMS take to meet the requirement?

- A. Configure Lead Creation and Lead Distribution inside PRM Workspace.
- B. Create a Lead Queue for Lead Distribution.
- C. Enable "Allow External Lead Creation" in Digital Experience settings.
- D. Add the lead inbox to the Partner site.
- E. Create a Lead Process for Lead Distribution.

Question 59

Choose 1 option.

A consultant wants to use ExperienceBundle to deploy their Experience Cloud site, but is unable to retrieve it.

What is causing the issue?

- A. The site has not yet been published
- B. A custom site template needs to be created
- C. The "Enable ExperienceBundle Metadata API" setting needs to be checked
- D. A change set containing the Network needs to be deployed

Question 60

Choose 1 option.

Ursa Major Solar (UMS) is building a portal for premium B2B customers but do not know how many of them will use the site. Customers will be able to access their account information, open cases, download NDAs, and create dashboards.

Which user license allows UMS to meet these requirements?

- A. Commerce Portal
- B. Channel Account
- C. Customer Community
- D. Platform Portal

Question 61

Choose 2 options.

Cloud Kicks wants to allow site users to tag site content with custom tags or member created topics.

Which two permissions must be enabled for site users in Setup to accomplish this?

- A. Assign Topics
- B. Tags Allowed
- C. Create Topics
- D. Member Can Access Topics

Question 62

Choose 1 option.

Cloud Kicks (CK) is planning to introduce a User Acceptance Testing (UAT) process to ensure quality. UAT will take place in Partial and Full sandboxes. CK has also set up the Salesforce Content Delivery Network (CDN) for its domain in production environment.

What should CK keep in mind about Salesforce CDN?

- A. Salesforce CDN is only supported in Full sandbox environments.
- B. Salesforce CDN is only supported in Developer sandbox environments.
- C. Salesforce CDN is only supported in one sandbox environment.
- D. Salesforce CDN is supported in all sandbox environments.

Question 63

Choose 1 option.

Northern Trail Outfitters (NTO) aims to provide personalization by encouraging its individual customers to self-register in its B2C site. NTO is not looking to create a placeholder account.

NTO's Experience consultant has set up self-registration in its Login and Registration pages. NTO's site manager has configured the "Allow customers and partners to self-register" option. NTO uses Customer Community Plus licenses.

Which step is needed to complete self-registration in NTO's site?

- A. Ensure that the Account field is empty in the registration section.
- B. Ensure that the Contact field is empty in the registration section.
- C. Contact Salesforce Customer Support to enable Person Accounts.
- D. Contact Salesforce Customer Support to enable Communities Self Registration Controller.

Question 64

Choose 2 options.

A consultant is asked to set up a new experience using the Customer Service template. The articles from an existing knowledge base must be exposed in the new site.

What are the two ways the consultant should associate the articles with topics?

- A. Select the appropriate topics on the Knowledge tab within Lightning Experience
- B. Manually add one or more topics to each article within Workspaces.
- C. Allow guest users to tag displayed articles with relevant topics on a public page
- D. Establish automatic topic assignment of topics to specified data categories within Workspaces.

Question 65

Choose 1 option.

Universal Containers (UC) has a business model that involves B2C as well as B2B customers. A group of B2B customers has recently signed a contract with UC that would allow them to start working with the UC Support team in resolving low-severity B2C customer issues.

How should UC use Experience Cloud to accomplish this goal?

- A. Create a digital experience for B2C customers, a partner portal for B2B customers, and use the internal CRM org for employees.
- B. Create a digital experience for B2C customers and add B2B customers to the internal CRM app to work with internal employees.
- C. Create a digital experience for B2C customers and employees, and another one for B2B customers and employees.
- D. Create a single digital experience for B2C customers, B2B customers, and employees.

Question 66

An administrator for Cloud Kicks wants to create a new partner user for an existing site.

Which step does the administrator need to perform right before providing user details and saving the user record?

- A. Click "New" on the User Setup page in Lightning Experience.
- B. Click "Manage Partner User" on the Account detail page, then click "Enable Partner User"
- C. Ensure that the account is enabled as a partner account, then click "Enable Partner User" on the contact detail page.
- D. Click "Manage Partner User" on the Contact detail page, then click "Enable Customer User".

Question 67

Ursa Major Solar would like to expose the custom object SolarPanels to its customer portal. This particular object contains 150 fields, and a majority of the fields are Technical codes and internal information.

How should the administrator limit the fields available in the customer portal?

- A. Utilize CSS overrides to hide unwanted fields.
- B. Create a page variation for the customer portal to hide unwanted fields.
- C. Utilize the Developer Console with coding to hide unwanted fields.
- D. Use Field-Level Security to remove access to the unwanted fields.

Question 68

Cloud Kicks (CK) wants to use its existing single sign-on (SSO) Identity Provider with its new Experience Cloud site. CK wants to use the Just-in-Time Provisioning feature for Experience Cloud.

Which value is required in the user type?

- A. Username
- B. Federation ID
- C. Entity ID
- D. Standard

Question 69

How can records owned by Customer Community users be shared with internal users?

- A. Create a Sharing Set that includes a Customer Community profile and create a Share Group for the Sharing Set.
- B. Use the standard is Owned By External User checkbox on records to create a criteria-based sharing rule to share records owned by Customer Community users with all internal users.
- C. Create a Share Group for a Customer Community profile that is not associated with a Sharing Set.
- D. Create an owner-based sharing rule to share records owned by a Customer Community role with all internal users.

Question 70

A consultant is setting up an experience for a client in a new org. The client insists on using standard profiles for external users.

Which step is required in order to use standard profiles in a site?

- A. Ensure the standard profiles have “Allow using standard external profiles for self-registration, user creation, and login” set to True.
- B. Create a permission set with “Allow standard external profiles” checked and assign to all external users.
- C. “Allow using standard external profiles for self-registration, user creation, and login” must be enabled.
- D. Customer Community Plus Login Experience licenses need to be used.

Question 71

An Experience site is built in an Unlimited org. Some of the pages within the site are exposed to guest users.

How many page views are allowed per month?

- A. 100,000
- B. 1 million
- C. 500,000
- D. 5 million

Question 72

The Experience Cloud manager has been asked to ensure that a Knowledge article is visible to internal Salesforce users, unauthenticated visitors to the site, and Third-party authenticated users.

Which two settings need to be configured on the draft article before it is published?

Choose 2 answers

- A. Visible to Guest User
- B. Visible in Public Knowledge Base
- C. Visible to Employee
- D. Visible to Partner

Question 73

Universal Containers is planning to build a community where customers will be able to view Knowledge articles and chat live with a support agent.

What should the administrator use to configure the chat functionality?

- A. Service Console and Service Channel
- B. Service Channel and Chatter
- C. Experience Builder and Chatter
- D. Chat setup flow in the Service Console

Question 74

Universal Containers is looking to build a new self-service site. Users will post questions, read Knowledge articles, and view case reports. Users will not be registering Deals or participating in any other sales activity.

Which external user license meets these requirements?

- A. Customer Community Plus
- B. External Identity
- C. Authenticated Service Site User
- D. External Community Plus

Question 75

40 of 65. Cloud Kicks (CK) wants to organize content on its site so that users can easily search and browse for information.

Which three features should CK use to accomplish this goal?

Choose 3 answers

- A. Navigation Tree
- B. Content Topics
- C. Navigational Topics
- D. Featured Topics
- E. Content Graph

Question 76

Ursa Major Solar (UMS) wants to streamline back-end processes and workflows for its employees. UMS recently learned about Lightning Bolt solutions for employees at a worldTour event.

Where should UMS look for potential Lightning Bolt solutions?

- A. Salesforce AppExchange
- B. Salesforce Connect
- C. Salesforce Accelerator Catalog
- D. Salesforce Accelerator Directory

Question 77

What are two ways a question can be escalated to a case?

Choose 2 answers

- A. Automatically via Process Builder by meeting specified criteria
- B. Manually by users commenting "Escalate"
- C. Automatically via Case Assignment Rules
- D. Manually by a maderator selecting "Escalate to Case" in the feed

Question 78

DreamHouse Realty recently created a site for potential buyers. The content is organized using topics.

Where can site users go to find out how current and popular a topic is?

- A. Content Management Report
- B. Trending Topics Channel
- C. Collaborauon Dashboard
- D. Topic's detail pege

Question 79

Cloud Kicks (CK) advises its diverse set of clients on how to use Experience Cloud. With new regulations taking effect, many of CK's clients want an easy and costEffective way to set up a site and gather their customers' communication preferences.

How should CK help compile these preferences?

- A. Create a Lightning Bolt solution that already includes all the preferences.
- B. Use the standard Preferences Chatbot to gather the preferences.
- C. Build a Service Console to gather the preferences.
- D. Create a Lightning Bolt solution with a template and a login flow to gather the preferences.

Question 80

Cloud Kicks (CK) has built a site using Salesforce Experience Builder. The CTO of CK wants to give customers the ability to log in to the site using their GoogleCredentials. CK also wants to access customers' basic Google profile data when they log in so the company can serve content that matches customers' interests.

How should the Experience Cloud consultant implement this?

- A. Create an Authentication Provider by choosing Google as the provider type and add relevant parameters to access the customers' basic profile data.
- B. Create a custom login page using Lightning components and use the Google REST API to access customers' basic profile data.
- C. Set up a login flow for communities that accepts the customers' Google credentials and matches with the credentials stored on the user records in Salesforce.
- D. Create a custom self-registration page and a custom login page by using Visualforce and Apex controllers.

Question 81

Northern Trail Outfitters has a network of resellers who are Partner Community users. One of the resellers has requested that their parent company get View access To cases created by their child companies.

Which functionality will meet the requirement best?

- A. Manually share cases.
- B. Move users who need case access to a higher level in the Role Hierarchy.
- C. Configure an External Account Hierarchy.
- D. Create a Sharing Set for the Account.

Question 82

AW Computing wants to create a site that gives customers access to Knowledge articles and peer-to-peer conversations, with the aim of decreasing the number of calls to its support organization.

What should AW Computing do to accomplish this goal?

- A. Create a site with the Marketing Microsite template
- B. Give access to its internal orgs using Chatter groups
- C. Open its Slack implementation to all customers
- D. Create a site with the Customer Service template

Question 83

To which three objects can the Partner Super User access be applied?

Choose 3 answers

- A. Custom Objects
- B. Campaigns
- C. Opportunities
- D. Cases
- E. Accounts

Question 84

Cloud Kicks has recently rolled out a new Experience Cloud site for its customers. The site has been activated and the contacts have been enabled as customer users. However, none of the users received their login credentials in an email.

What caused this issue?

- A. The roles were not enabled for the users.
- B. The sender's email address was changed while it was pending verification.
- C. The sender's email address was changed and not verified.
- D. The welcome emails were not enabled for the site.

Question 85

Cloud Kicks (CK) is launching a new public marketing site. The company expects a large volume of traffic and wants to ensure its site performs well. CK also wants repeat visitors to have the fastest browsing experience possible.

What should CK do to get the best performing site?

- A. Disable Visualforce to make all pages switch to Lightning.
- B. Use Next Best Action to predict what content to serve to the user's browser.
- C. Schedule Apex jobs to push content to users' browser caches.
- D. Enable and configure the Content Delivery Network so that public content is cached.

Question 86

DreamHouse Realty (DR) is designing a digital experience for its global real estate team. The realtors will need access to Knowledge, reports and dashboards, and leads coming in from the website. Leads are converted to Opportunities by an internal DR deal desk.

Which license type meets this requirement?

- A. Partner Community
- B. Customer Community
- C. Customer Community Plus
- D. Channel Account

Question 87

Universal Containers has recently launched a site for its retailers. Retailers are able to collaborate with other retailers around topics; however, retail managers aren't able to view records owned by their peers and subordinates.

What should be done to resolve the issue?

- A. Sharing Rule needs to be created.
- B. Retail managers need to be put in the executive role in the Role Hierarchy.
- C. Sharing Set needs to be created.
- D. Retail managers need to be given Super User access.

Question 88

Northern Trail Outfitters (NTO) is planning to create an HR help desk for its employees. IT recommends using Experience Cloud to build the HR help desk app.

What should NTO consider when building the HR help desk app?

- A. HR user profile is only available in Enterprise and Performance Editions with HR permission set license.
- B. The HR help desk app can centralize Chatter from all related active Experience Cloud sites in the org.
- A. The HR help desk app can centralize knowledge and self service in to one experience site.
- C. HR user profile is only available in Employee Cloud with Employee permission set license.

Question 89

No More Homelessness (NMH) is about to create a public site for volunteers where they will be able to sign up for volunteering opportunities at local events. Each Registration will result in a record being created for a custom EventRegistration object.

Which three considerations should NMH keep in mind for records created by guest users?

Choose 3 answers

- A. When possible, one should create and assign queues as owners of records created by guest users.
- B. Default owner does not need Read/Write access to view the records created by guest users.
- C. Queues cannot be assigned as owners of records created by guest users.
- D. Setting the default owner for records created by guests is an option in Experience Cloud sites.
- E. Any active user in an org can be assigned as the default owner of records created by guest users.

Question 90

6 of 65. Ursa Major Solar would like its authenticated external users to be able to search for Quote and Contract objects but not Opportunity or Asset objects.

Which two standard features allow an administrator to accomplish that?

Choose 2 answers

- A. Remove Opportunity and Asset from the object list in the Global Search Results component property editor.
- B. Remove Opportunity and Asset from the Navigation Menu component in the property editor.

- C. Remove Opportunity and Asset from the Autocomplete object list in the Search component property editor.
- D. Remove Opportunity and Asset from the Tile Menu component in the property editor.

Question 91

Dream House Realty (DR) recently created a site for potential buyers. DR has a rich knowledge base organized in data categories and now plans to make those Knowledge articles available to site users.

Which two steps does DR need to take in order to ensure that new articles show up in the site on an ongoing basis without manual intervention?

Choose 2 answers

- A. Enable "Automate Topic Assignment" setting.
- B. Enable "Share on Sites" setting in the Tile Menu component in the property editor.
- C. Map articles to Content Topics.
- D. Map topics to data categories.

Question 92

DreamHouse Realty (DR) plans to invite individuals from several new companies to its Broker Portal and would like to differentiate the user experience for each company.

Which three options should the DR system administrator use to personalize the look and feel of the portal for each new brokerage?

Choose 3 answers

- A. Branding Sets
- B. Page Variations
- C. Partner User Roles
- D. Audience Targeting
- E. Audience Sets

Question 93

An administrator for Cloud Kicks wants to create a new partner user for an existing site.

Which step does the administrator need to perform right before providing user details and saving the user record?

- A. Ensure that the account is enabled as a partner account, then click “Enable Partner User” on the contact detail page.
- B. Click “Manage Partner User on the Account detail page, then click “Enable Partner User
- C. Click “New” on the User Setup page in Lightning Experience.
- D. Click “Manage Partner User” on the Contact detail page, then click “Enable Customer User

Question 94

Ursa Major Solar (UMS) wants to streamline back-end processes and workflows for its employees. UMS recently learned about Lightning Bolt solutions for employees at a world tour event.

Where should UMS look for potential Lightning Bolt solutions?

- A. Salesforce AppExchange
- B. Salesforce Accelerator Directory
- C. Salesforce Accelerator Catalog
- D. Salesforce Connect

Question 95

Get Cloudy Consulting wants to leverage Metadata API for migrating changes between environments.

What are the three key features of Metadata API?

Choose 3 answers

- A. Metadata API might require manual migration for changes that involve unsupported settings and features.
- B. Metadata API can be used programmatically as well as declaratively.
- C. Metadata API is ideal when multiple work streams are involved.
- D. Metadata API supports migrating all site settings and features
- E. Metadata API is ideal for when the changes are complex.

Question 96

Cloud Kicks (CK) has built a site using Salesforce Experience Builder. The CTO of CK wants to give customers the ability to log in to the site using their GoogleCredentials. CK also wants to access customers' basic Google profile data when they log in so the company can serve content that matches customers' interests.

How should the Experience Cloud consultant implement this?

- A. Create a custom login page using Lightning components and use the Google REST API to access customers' basic profile data.
- B. Create a custom self-registration page and a custom login page by using Visualforce and Apex controllers.
- C. Set up a login flow for communities that accepts the customers Google credentials and matches with the credentials stored on the user records in Salesforce.
- D. Create an Authentication Provider by choosing Google as the provider type and add relevant parameters to access the customers' basic profile. API is ideal for when the changes are complex.

Question 96

Ursa Major Solar (UMS) is planning to use Salesforce Partner Relationship Management (PRM) to manage partner lifecycle. UMS is aware that Salesforce PRM can help with channel sales, lead distribution, and co-marketing with partners.

Which three features can be used with Salesforce PRM to improve partner self-service?

Choose 3 answers

- A. Partner Value Score Matrix
- B. AI-Powered Knowledge Base
- C. Partner Incentivization Map
- D. Case Escalation
- E. Chat

Question 97

Universal Containers is planning to build a community where customers will be able to view Knowledge articles and chat live with a support agent.

What should the administrator use to configure the chat functionality?

- A. Chat setup flow in the Service Console
- B. Service Console and Service Channel

- C. Experience Builder and Chatter
- D. Service Channel and Chatter

Question 97

No More Homelessness (NMH) is about to create a public site for volunteers where they will be able to sign up for volunteering opportunities at local events. Each registration will result in a record being created for a cust EventRegistration object.

Which three considerations should NMH keep in mind for records created by guest users?

Choose 3 answers

- A. When possible, one should create and assign queues as owners of records created by guest users.
- B. Queues cannot be assigned as owners of records created by guest users.
- C. Any active user in an org can be assigned as the default owner of records created by guest users.
- D. Default owner does not need Read/Write access to view the records created by guest users.
- E. Setting the default owner for records created by guests is an option in Experience Cloud sites.

Question 98

Universal Containers is looking to build a new self-service site. Users will post questions, read Knowledge articles, and view case reports. Users will not be register deals or participating in any other sales activity.

Which external user license meets these requirements?

- A. Authenticated Service Site User
- B. Customer Community Plus
- C. External Community Plus
- D. External Identity

Question 99

The Experience Cloud manager has been asked to ensure that a Knowledge article is visible to internal Salesforce users, unauthenticated visitors to the site, and third-party authenticated users.

Which two settings need to be configured on the draft article before it is published?

Choose 2 answers

- A. Visible to Employee
- B. Visible to Partner
- C. Visible in Public Knowledge Base
- D. Visible to Guest User

Question 100

Northern Trail Outfitters (NTO) is planning to create an HR help desk for its employees. IT recommends using Experience Cloud to build the HR help desk app.

What should NTO consider when building the HR help desk app?

- A. The HR help desk app can centralize Chatter from all related active Experience Cloud sites in the org.
- B. HR user profile is only available in Employee Cloud with Employee permission set license.
- C. The HR help desk app can centralize knowledge and self service in to one experience site.
- D. HR user profile is only available in Enterprise and Performance Editions with HR permission set license.

Question 101

A consultant is setting up an experience for a client in a new org. The client insists on using standard profiles for external users.

Which step is required in order to use standard profiles in a site?

- A. Customer Community Plus Login Experience licenses need to be used.
- B. "Allow using standard external profiles for self-registration, user creation, and login" must be enabled.
- C. Ensure the standard profiles have "Allow using standard external profiles for self-registration, user creation, and login" set to True.
- D. Create a permission set with "Alance Editions with HR permission set license.

Question 102

Universal Containers has recently launched a site for its retailers. Retailers are able to collaborate with other retailers around topics; however, retail records owned by their peers and subordinates.

What should be done to resolve the issue ?

- A. Sharing Rule needs to be created.
- B. Retail managers need to be given Super User access.
- C. Sharing Set needs to be created.
- D. Retail managers need to be put in the executive role in the Role Hierarchy.

Question 103

Which three considerations should be made when using Criteria-Based Audiences?

Choose 3 answers

- A. Record Type criteria cannot be assigned to a component.
- B. Components in the template header and footer sections cannot be assigned to an audience.
- C. Domain criteria are not available in sandbox or Developer Edition orgs.
- D. Salesforce must be contacted if you need to use the domain criteria in sandbox or Developer Edition orgs.
- E. Up to 2,000 audiences can be created.

Question 104

Dreamscape Flowers is looking to launch a public site for its current customers and prospects.

Which three actions are performed automatically when a site is created using Experience Cloud?

Choose 3 answers

- A. Creation of moderation criteria that are applied only to guest users
- B. Creation of a guest profile
- C. Creation of sharing mechanisms that are available only to guest users
- D. Creation of a guest role
- E. Creation of a guest user record

Question 105

Northern Trail Outfitters implemented a chatbot on its Experience Cloud site.

Which three KPIs could be used to help understand the chatbot's impact on customer service?

Choose 3 answers

- A. Number of lead records created
- B. Case deflection
- C. CSAT (Customer Satisfaction score)
- D. Case Type by Issue
- E. Average Handle Time compared to Bot Session Time

Question 106

AW Computing wants to create a site that gives customers access to Knowledge articles and peer-to-peer conversations, with the aim of decreasing th

Calls to its support organization.

- A. What should AW Computing do to accomplish this goal?
- B. Create a site with the Customer Service template
- C. Open its Slack implementation to all customers
- D. Create a site with the Marketing Microsite template
- E. Give access to its internal orgs using Chatter groups

Question 107

DreamHouse Realty (DR) recently created a site for potential buyers. DR has a rich knowledge base organized in data categories and now plans to make those Knowledge articles available to site users.

Which two steps does DR need to take in order to ensure that new articles show up in the site on an ongoing basis without manual intervention?

Choose 2 answers

- A. Map topics to data categories.
- B. Enable "Share on Sites" setting.
- C. Map articles to Content Topics.

D. Enable "Automate Topic Assignment" setting.

Question 108

Ursa Major Solar would like its authenticated external users to be able to search for Quote and Contract objects but not Opportunity or Asset objects.

Which two standard features allow an administrator to accomplish that?

Choose 2 answers

- A. Remove Opportunity and Asset from the Autocomplete object list in the Search component property editor.
- B. Remove Opportunity and Asset from the Navigation Menu component in the property editor.
- C. Remove Opportunity and Asset from the Tile Menu component in the property editor.
- D. Remove Opportunity and Asset from the object list in the Global Search Results component property editor.

Question 109

Ursa Major Solar (UMS) is evaluating Salesforce Partner Relationship Management (PRM) to help

Improve its current channel sales performance.

In which two ways can Salesforce PRM help UMS accelerate channel sales?

Choose 2 answers

- A. Automate partner entitlement assignment in Channel Sales teams
- B. Enable partner lead routing
- C. Extend automated quoting capabilities to partners
- D. Use Search Results component property editor.

Question 110

Ursa Major Solar would like to expose the custom object SolarPanels to its Customer portal. This particular object contains 150 fields, and a majority of the fields are technical codes and internal information.

How should the administrator limit the fields available in the customer portal?

- A. Utilize the Developer Console with coding to hide unwanted fields.
- B. Use Field Level Security to remove access to the unwanted fields.
- C. Create a page variation for the customized bal Search Results component property editor.

Question 111

The Experience Cloud manager has been asked to ensure that a Knowledge article is visible to internal

Salesforce users, unauthenticated visitors to the site, and third-party authenticated users.

Which two settings need to be configured on the draft article before it is published?

Choose 2 answers

- A. Visible to Partner
- B. Visible to Employee
- C. Visible in Public Knowledge Base
- D. Visible to Guest User

Question 112

Universal Containers is looking to build a new self-service site. Users will Post questions, read Knowledge articles, and view case reports. Users will not be Registering deals or participating in any other sales activity.

Which external user license meets these requirements?

- A. External Identity
- B. Authenticated Service Site User
- C. Customer Community Plus
- D. External Community Plus

Question 113

Ursa Major Solar (UMS) is planning to use Salesforce Partner Relationship Management (PRM) to Manage partner lifecycle. UMS is aware that Salesforce PRM can help with channel sales, lead distribution, and co Marketing with partners.

Which three features can be used with Salesforce PRM to improve partner self-service?

Choose 3 answers

- A. Case Escalation
- B. AT-Powered Knowledge Base
- C. Chat
- D. Partner Incentivization Map
- E. Partner Value Score Matrix

Question 114

Cloud Kicks (CK) has built a site using Salesforce Experience Builder. The CTO of CK wants to give customers the ability to log in to the site using their Google Credentials. CK also wants to access customers' basic Google profile data when they log in so the company can serve content that matches customers' interests.

How should the Experience Cloud consultant implement this?

- A. Create an Authentication Provider by choosing Google as the provider type and add relevant parameters to access the customers' basic profile data.
- B. Set up a login flow for communities that accepts the customers' Google credentials and matches with the credentials stored on the user records in Salesforce.
- C. Create a custom self registration page and a custom login page by using Visualforce and Apex Controllers.
- D. Create the Google REST API Incentivization Map Partner Value Score Matrix

Question 115

DreamHouse Realty (DR) has active participation of home owners and Prospective buyers in its Experience Cloud site that uses Chatter. Recently, DR observed a significant number of comments being marked as spam. DR's Salesforce and Security teams did further analysis and identified the posts made by the spammers. DR's Management team has decided to remove all the spammers' posts and comments from the Experience Cloud site.

What should the Experience Cloud consultant recommend to remove them?

- A. Utilize the Insights reports by creating and using a custom action to remove all the spammers' posts and comments.
- B. Experience Cloud site managers, moderators, and admins work together to remove all the spammers' posts and comments manually.
- C. Enable Experience Cloud Einstein features to remove all the spammers' posts and comments as a Background action.

- D. Submit a high-priority case with Salesforce Support to remove all of the spammers' posts andComments. The site will be under maintenance state until resolution.

Question 116

Cloud Kicks (CK) wants to use its existing single sign-on (SSO) IdentityProvider with its new Experience Cloud site.CK wants to use the Just-in-Time Provisioning feature for Experience Cloud.

Which value is required in the user type?

- A. Username
- B. Entity ID
- C. Standard
- D. Federation ID

Question 117

Northern Trail Outfitters (NTO) is planning to create an HR help desk for its Employees. IT recommends using Experience Cloud to build the HR help desk app.

What should NTO consider when building the HR help desk app?

- A. The HR help desk app can centralize knowledge and self service in to one experience site.
- B. HR user profile is only available in Enterprise and Performance Editions with HR permission set License.
- C. HR user profile is only available in Employee Cloud with Employee permission set license.
- D. The HR help desk app can centralize Chatter from all related active Experience Cloud sites in the org.

Question 118

DreamHouse Realty (DR) plans to invite individuals from several new companies to its Broker Portal andWould like to differentiate the user experience for each company.

Which three options should the DR system administrator use to personalize the look and feel of the portal for eachNew brokerage?

Choose 3 answers

- A. Audience Targeting
- B. Branding Sets
- C. Page Variations
- D. Partner User Roles
- E. Audience Sets

Question 119

A consultant is setting up an experience for a client in a new org. The client insists on using standard profiles for external users.

Which step is required in order to use standard profiles in a site?

- A. Ensure the standard profiles have “Allow using standard external profiles for self-registration, user Creation, and login” set to True.
- B. “Allow using standard external profiles for self-registration, user creation, and login” must be Enabled.
- C. Create a permission set with “Allow standard external profiles” checked and assign to all external Users.
- D. Customer Community Plus Login Experience licenses need to be used.

Question 120

Which three considerations should be made when using Criteria-Based Audiences?

Choose 3 answers

- A. Components in the template header and footer sections cannot be assigned to an Audience.
- B. Record Type criteria cannot be assigned to a component.
- C. Domain criteria are not available in sandbox or Developer Edition orgs.
- D. Up to 2,000 audiences can be created.
- E. Salesforce must be contacted if you need to use the domain criteria in sandbox or Developer Edition orgs.

Question 121

Get Cloudy Consulting wants to leverage Metadata API for migrating changes between environments.

What are the three key features of Metadata API?

Choose 3 answers

- A. Metadata API is ideal when multiple work streams are involved.
- B. Metadata API can be used programmatically as well as declaratively.
- C. Metadata API might require manual migration for changes that involve unsupported Settings and features.
- D. Metadata API is ideal for when the changes are complex.
- E. Metadata API supports migrating all site settings and features.

Question 122

AW Computing wants to create a site that gives customers access to Knowledge articles and peer-to-peer conversations, with the aim of decreasing the Number of calls to its support organization.

What should AW Computing do to accomplish this goal?

- A. Open its Slack implementation to all customers
- B. Create a site with the Customer Service template
- C. Create a site with the Marketing Microsite template
- D. Give access to its internal orgs using Chatter groups

Question 123

16 of 65. Ursa Major Solar (UMS) is automating its business processes using Salesforce. UMS wants its Platinum Partners to be able to approve installation projects and deals. In which two ways can UMS accomplish this?

Choose 2 answers

- A. Add external users directly to approval queues and create a digital experience for those Users.
- B. Assign external users Super User access on records and create a digital experience for Those users.
- C. Assign external users as the co owners on records and create a digital experience for Those users.
- D. Assign external users as approvers on records and create a digital experience for those Users.

Question 124

DreamHouse Realty (DR) is designing a digital experience for its global realEstate team. The realtors will need access to Knowledge, reports and dashboards, and Leads coming in from the website. Leads are converted to Opportunities by an Internal DR deal desk.

Which license type meets this requirement?

- A. Partner Community
- B. Customer Community Plus
- C. Channel Account
- D. Customer Community

Question 125

What are two ways a question can be escalated to a case?

Choose 2 answers

- A. Manually by users commenting "Escalate"
- B. Automatically via Case Assignment Rules
- C. Automatically via Flow Builder by meeting specified criteria
- D. Manually by a moderator selecting "Escalate to Case" in the feed

Question 126

Ursa Major Solar (UMS) wants to streamline back-end processes and workflows for its Employees. UMS recently learned about Lightning Bolt solutions for employees at a World tour event.

Where should UMS look for potential Lightning Bolt solutions?

- A. Salesforce Connect
- B. Salesforce Accelerator Directory
- C. Salesforce AppExchange
- D. Salesforce Accelerator Catalog

Question 127

Universal Containers is planning to build a community where customers will Be able to view Knowledge articles and chat live with a support agent.

What should the administrator use to configure the chat functionality?

- A. Experience Builder and Chatter
- B. Service Console and Service Channel
- C. Service Channel and Chatter
- D. Chat setup flow in the Service Console

Question 128

Universal Containers has recently launched a site for its retailers. Retailers are able to Collaborate with other retailers around topics; however, retail managers aren't able to See records owned by their peers and subordinates.

What should be done to resolve the issue?

- A. Retail managers need to be put in the executive role in the Role Hierarchy.
- B. A Sharing Rule needs to be created.
- C. A Sharing Set needs to be created.
- D. Retail managers need to be given Super User access.

Question 129

Cloud Kicks (CK) is in the process of updating and retiring multiple Experience Cloud sites on its one org.

What should CK consider before taking action as it inactivates and brings on new Sites?

- A. Each org can have up to 100 Experience Cloud sites; preview sites count toward that limit but Inactive sites do not.
- B. Each org can have up to 100 Experience Cloud sites as long as they are active.
- C. Each org can have up to 100 Experience Cloud sites; active, preview, and inactive sites all count Toward that limit.
- D. Each org can have up to 100 Experience Cloud sites; preview sites don't count toward that limit.

Question 130

An administrator for Cloud Kicks wants to create a new partner user for an Existing site. Which step does the administrator need to perform right before providing user details

And saving the user record?

- A. Click "New" on the User Setup page in Lightning Experience.

- B. Ensure that the account is enabled as a partner account, then click “Enable Partner User” on the Contact detail page.
- C. Click “Manage Partner User” on the Contact detail page, then click “Enable Customer User”.
- D. Click “Manage Partner User” on the Account detail page, then click “Enable Partner User”.

Which user visibility setting needs to be enabled at a minimum?

- A. Portal User Visibility
- B. Site User Visibility
- C. Guest User Visibility
- D. None

Question 150

Ursa Major Solar (UMS) uses a third party to manage low-severity tickets using its legacy system. Sometimes, third-party agents have to create Cases on behalf of UMS customers.

Which user licenses should the implementation practitioner recommend for third-party staff?

- A. Customer Identity
- B. Customer Community Plus
- C. Customer Community
- D. Partner Community

Question 151

Universal Containers is looking to onboard three new partners to the community. Each partner should have a branded experience containing their colors and logo.

- Gold and Silver partners should have access to the Leads Inbox component, but Bronze partners should not.
- Bronze partners should not have access to the Leads tab.

How should an administrator solve for these requirements?

- A. Create branding sets, audience targeting, and a custom Navigation Menu component.
- B. Create a separate community for each partner with audience targeting.
- C. Create branding sets, a separate page variation for each partner, and a custom Navigation Menu component.
- D. Create branding sets, audience targeting, and navigation menu targeting.

Question 152

Universal Containers (UC) has a business model that involves B2C as well as B2B customers. A group of B2B customers has recently signed a Contract with UC that would allow them to start working with the UC Support team in resolving low-severity B2C customer issues.

How should UC use Experience Cloud to accomplish this goal?

- A. Create a digital experience for B2C customers and employees, and another one for B2B customers and employees.
- B. Create a single digital experience for B2C customers, B2B customers, and employees.
- C. Create a digital experience for B2C customers, a partner portal for B2B customers, and use the internal CRM org for employees.
- D. Create a digital experience for B2C customers and add B2B customers to the internal CRM app to work with internal employees.

Question 153

Universal Containers (UC) has a B2C customer department that uses person accounts to track and manage all B2C customers. UC has set up a B2C site using Salesforce Experience Cloud. The VP of B2C business wants to enable self-registration on the portal so customers can create their own user Accounts.

What should the Experience Cloud consultant at UC recommend so that the new users self-registering on the B2C site are captured as person accounts in Salesforce?

- A. Use the standard self-registration configuration under Experience Workspace that assigns users to a default business account, and then build a trigger on Account to create person accounts for Each user.
- B. Create a custom self-registration page and Apex handler that creates a person account for each user self-registering on the portal.
- C. Restrict the Account record type access to Person Account record type only for the Site Guest User, so any account created is by default a person account.
- D. Use the standard self-registration configuration under Experience Workspace and leave the default Account field empty.

Question 155

Universal Containers (UC) is planning to create a portal for its global partner network. Users will be assigned a Partner Comm Role.

Which two things should UC keep in mind when setting up partner roles?

Choose 2 answers

- A. Role Hierarchy can only be used if all objects have external OWD set to Private.
- B. The default limit for the number of roles for portals is 50,000 per org.
- C. Unused roles can be deleted.
- D. Once created, roles cannot be deleted.

Question 156

Universal Containers (UC) is implementing a community for its retailers.

How can UC give retail store managers access to the records owned by their peers and subordinates?

- A. Email retail managers best practices on how to manually share data.
- B. Set OWD to public, and manage access via Apex Sharing.
- C. Give retail managers Super User access.

- D. Put retail managers in a manager role.

Question 157

Universal Containers (UC) wants to create a self-service site for its existing and prospective customers. The site will contain article Manuals, and FAQs. Users will be able to ask questions and answer other users' questions on the site.

Which two Experience Cloud features should UC focus on as it starts building out the site?

Choose 2 answers

- A. Public Site Connect
- B. Feeds
- C. Document Library Model (DLM)
- D. Guest user and public access settings

Question 158

Which Lightning App Builder component informs support agents working in the Service Console what actions a customer has taken on an Experience Cloud site?

- A. Customer Insights
- B. Experience Tracker
- C. Einstein Customer
- D. Community View

Question 159

An administrator for Cloud Kicks wants to create a new partner user for an existing site.

Which step does the administrator need to perform right before providing user details and saving the user record?

- A. Click "Manage Partner User" on the Contact detail page, then click "Enable Customer User".
- B. Click "New" on the User Setup page in Lightning Experience.
- C. Click "Manage Partner User" on the Account detail page, then click "Enable Partner User".
- D. Ensure that the account is enabled as a partner account, then click "Enable Partner User" on the contact detail page.

Question 160

Insightopia is planning to create a high-performance site for its partners. The Home page will feature multiple custom components that will Provide insights and trends along with near real-time updates.

Which template should Insightopia consider for its site?

- A. Help Center
- B. Customer Account Portal
- C. Build Your Own (LWR)
- D. Partner Central

Question 161

Which three considerations should be made when using Criteria-Based Audiences?

Choose 3 answers

- A. Up to 2,000 audiences can be created.
- B. Salesforce must be contacted if you need to use the domain criteria in sandbox or Developer Edition orgs.
- C. Domain criteria are not available in sandbox or Developer Edition orgs.
- D. Components in the template header and footer sections cannot be assigned to an audience.
- E. Record Type criteria cannot be assigned to a component.

Question 162

Ursa Major Solar (UMS) is planning to build a portal for its partners. Among other things, UMS will be distributing leads to its partners in the portal.

Which standard component can UMS leverage if it elects to use Partner Central template?

- A. Lead Inbox
- B. Lead Distribution
- C. Lead Flow

- A. Assign the Gold Partner permission to the user.
- B. Create & partner queue, and add users to it.
- C. Add the user to the All Partner Portal Users public group.
- D. Select Enable Partner User from the Contact Detail page.

Question 195

Universal Containers (UC) is looking to create a site that supports channel sales, lead distribution, and deal registration. Which template should UC select?

- A. Partner Central
- B. Help Center
- C. Customer Account Portal
- D. Build Your Own

Question 196

Ursa Major Solar (UMS) is using the Customer Account Portal template and would like to differentiate the options available on the navigation menu based on the profile of the authenticated user visiting their customer portal. Which Experience Cloud functionality should UMS use to accomplish this?

- A. Permission Sets
- B. Audience Targeting
- C. Sharing Rules
- D. Overrides

Question 197

Cloud Kicks (CK) is in the process of updating and retiring multiple Experience Cloud sites on its one org. What should CK consider before taking action as it inactivates and brings on new sites?

- A. Each org can have up to 100 Experience Cloud sites; preview sites don't count toward that limit
- B. Each org can have up to 100 Experience Cloud sites; preview sites count toward that limit but inactive sites do not.
- C. Each org can have up to 100 Experience Cloud sites as long as they are active.
- D. Each org can have up to 100 Experience Cloud sites; active, preview, and inactive sites all count toward that limit

Question 198

Which component can be embedded into an Experience Cloud site to start conversations with customers using the channels they prefer?

- A. Channel Menu
- B. Chat
- C. Service Your Way
- D. Service Console

Question 199

Insightopia's Experience Cloud site went live on the first day of the last month. The launch has been very successful, and the number of community members has reached the first milestone of 10,000. The Experience Cloud site manager wants to implement gamification methods to increase engagement and adoption. What should be the recommended approach for implementing gamification?

- A. Use the Missions feature to assign badges to members automatically
- B. Use the Linstein game mechanics feature for implementing gamification.
- C. Organize a community event to get ideas for implementing gamification
- D. Build flows to implement gamification for community members.

Question 200

Ursa Major Solar (UMS) has business and person accounts in its Salesforce org. UMS has partner portals created for its Silver partners, DreamHouse Realty (DR) and Cloud Kicks (CK). UMS's Implementation team is creating users for its partners. DR and CK users do not require access to opportunities, leads, and campaigns. In which two ways can the implementation team most efficiently create the partner users?

Choose 2 answers

- A. Assign Partner Community license to partner users.
- B. Only business accounts can be created as partner users.
- C. Assign Customer Community Plus license to partner users.
- D. Only person accounts can be created as partner users.

Question 201
