AW Computing groups its technicians based on seniority. The newest techs comprise Tier 1, move to Tier 2 after a year on the job, and get assigned to Tier 3 after 3 years on the job. Resources with more seniority should be considered for a job over resources with less seniority.

How should the field service administrator ensure this corporate policy is enforced considering the Customer First scheduling policy is utilized consistently except in emergency situations?

02D8B536EE4995E26ABD3C34EFC499FB

- A. ☒ Make a relevance group on the work rule to filter based on the tier number and add the rule to the policy.
- B. ☐ Create a custom number field to capture the tier number on the service resource.
- C. ☐ Use the Priority field on the service resource assigning Tier 3 techs the lowest number and Tier 1 techs with the highest number.
- D. ☐ Create a queue for each tier group within each territory on the Service Appointment object.

Ursa Major Solar tracks installed products using the Salesforce Asset object. Each individual solar panel is treated separately. To save money on service calls, many times customers will wait to have a technician come onsite until there are multiple panels that need servicing.

How should the callout for multiple panels be treated in Salesforce?

02D8B536EE4995E26ABD3C34EFC499FB

- A. ☒ Create a work order with a work order line item for each installed product.
- B. ☐ Create a work order for each installed product and a work order dependency to assign to the same resource.
- C. ☐ Create a work order hierarchy with each installed product as a child work order.
- D. ☐ Create an asset hierarchy with each installed product as a child asset in the hierarchy.

When customers call in for support at AW Computing, a case is always created. If the issue cannot be solved without dispatching a technician, a work order is created from the case. Milestones are currently being used on cases, and support operations would like to extend the use of milestones to the work orders. To meet this requirement, the system administrator added the milestone Lightning component to the work order Lightning record page. Technicians and managers are reporting that there are no milestones listed when viewing the record.

How should this issue be resolved?

02D8B536EE4995E26ABD3C34EFC499FB

- A. ☐ Create a separate entitlement process associated to the work order object.
- B. ☐ Make sure the case entitlement record is being shared with the service resource.
- C. ☒ Ensure the work order entitlement is related to the same process as the case entitlement.
- D. ☐ Add work order milestones after the case milestones to the entitlement process.
