- ☐ B. Create and implement a feature-rich Loyalty Member Mobile App
- ☒ C. Install the Salesforce Loyalty Member Mobile App
- ☐ D. Enable Experience Cloud and customize the Loyalty Member Portal

Question 3 of 50

Choose 2 options.

A Consultant was tasked with setting up the connection between Salesforce Loyalty Management and Marketing Cloud. The Consultant created a new user account in Marketing Cloud

Which two items on the Marketing Cloud user account should the Consultant configure to enable the user account to successfully connect with Salesforce Loyalty Management?

- ☒ A. Grant access to the correct business unit
- ☐ B. Assign the permission set to the user account
- ☒ C. API access
- ☐ D. User account must exist within the Loyalty Management org

Question 4 of 50

Choose 3 options.

What three facts should the Administrator consider when creating and managing member groups?

- ☐ A. Promotions can't be offered to groups.
- ☐ B. Groups are associated with tiers.
- ☒ C. Accrual type transactions associated with a group can be canceled.
- ☒ D. Vouchers can't be issued to groups.
- ☒ E. Qualifying points can't be transferred to a group.

Question 5 of 50

Choose 1 option.

Universal Containers sells sports shoes through an eCommerce system. The Loyalty Program Members earn points in real-time with every purchase made.

How can this be built into Salesforce?

- ☐ A. Create custom web service with Order Object.
- ☐ B. Create an scheduled process to call the external system.
- ☒ C. Integrate with the external system to create Transaction Journals.
- ☐ D. Download an app from the AppExchange to connect Salesforce and the external system.

Question 6 of 50

Choose 3 options.

A retailer of sports clothing and accessories is currently looking to roll out a Loyalty Program for its customers and sets up a Loyalty Program using Salesforce Loyalty Management. The retailer has decided to implement four-tier groups that will be associated with the program.

What are the three necessary attributes that need to be defined when setting up tier groups?

- ☒ A. Tier Period
- ☐ B. Fixed Tier Model
- ☐ C. Non-Qualifying Period
- ☒ D. Qualifying period
- ☒ E. Tier Model

Question 7 of 50

Choose 1 option.

A Loyalty Cloud user creates a segment of top-tier customers from the Individual object so they can target their customers with a special promotion.

What would a Technical Consultant use to add fields from different Data Model Objects (DMOs) than your segment is built on to send to your activation target?

- ☒ A. Preferred Attribute Name
- ☐ B. Activation Membership
- ☐ C. Contact Grouping
- ☐ D. Segment Priorization

Question 8 of 50

Choose 2 options.

A Loyalty Management Consultant recently created a new analytics app, but users cannot access the app.

Which two statements correctly describe how to grant proper access on the user detail page?

- ☒ A. Assign access by checking CRM Analytics plus user
- ☐ B. Assign the user the analytics profile for analytics for Loyalty.
- ☐ C. Assign user access to the analytics for Loyalty role.
- ☒ D. Assign user access to permission sets for analytics for Loyalty.

Question 9 of 50

Choose 3 options.

A company has recently rolled out a Loyalty Program. The customer support agents need to manually adjust the points for Loyalty Program Members.

On which three Loyalty pages will customer support agents be able to adjust points?

- ☐ A. Account page
- ☐ B. Contact page
- ☒ C. Loyalty Program Member Related List
- ☒ D. Transaction Journal
- ☒ E. Loyalty Program Member page

Question 10 of 50

Choose 2 options.

An Administrator must configure a tier point reset for a Loyalty Program to occur once every two years.

Which two settings does the Administrator need to consider in this scenario?

- ☒ A. The qualifying point reset date, period, and frequency are set on the tier group.
- ☐ B. The currency type field must correspond to non-qualifying.
- ☒ C. The currency type field must correspond to qualifying.
- ☐ D. The Loyalty tier group field is populated.

Correct Answer : A, D

Question 11 of 50

Choose 3 options.

A hotel group has finished setting up its Loyalty Program and now wants to provide its Loyalty members with live updates about their program membership. They are looking for a solution that lets members view their membership details whenever they want to, and expect that this can be implemented without a need for complex customization.

Using the available product features of Loyalty Management, Which three tasks should an Administrator implement to meet the Hotel group's requirements?

- ☒ A. LoyaltyMemberTier
- ☒ B. TransactionJournal
- ☐ C. LoyaltyLedger
- ☒ D. LoyaltyBenefits
- ☐ E. Contact Record

Correct : B.C,E

Question 12 of 50

Choose 1 option.

Universal Containers (UC) plans to implement Salesforce Loyalty Management for a new Loyalty program; however, its operations team remains skeptical about the Loyalty solutions, such as rules, processes, and benefit types.

Which option should UC consider when planning its implementation to ensure staff is helping to boost adoption and engagement?

- ☐ A. Describe the initiative to the Chief Marketing Officer team for their approval
- ☐ B. Define a strategy led by marketing and involving the analytics team.
- ☐ C. Define a strategy led by marketing and involving the finance team.
- ☒ D. Define a company-wide initiative, including an operations team.

Question 13 of 50

Choose 1 option.

Northern Trail Outfitters an online clothing store has recently enabled the Loyalty Program.

Which objects count toward data storage capacity?

- ☐ A. Person Account, Email Messages, Transaction Journals, Loyalty Member Currency
- ☐ B. Person Account, Loyalty Member Tier, Orders, Loyalty Program Members
- ☐ C. Person Account, Loyalty Ledgers, Cases, Loyalty Program Currency
- ☒ D. Person Account, Orders, Loyalty Program Members, Transaction Journals

Question 14 of 50

Choose 1 option.

A Loyalty Manager would like to set up an email-send process in Salesforce Marketing Cloud (SFMC) that needs to inform the member via email immediately once a tier change has been applied. The company is using Marketing Cloud Connect.

A solution was proposed to draft a design using a journey process to send the notification email and a new custom object named "MemberTierUpdate__c" that stores the members that are qualified for a tier upgrade.

Which data source options within the journey should a Consultant use to fulfill this design?

- ☐ A. "Salesforce Data" as the Entry Source, "Contact" object as the data-source
- ☐ B. "Data-Extension" as the Entry Source, "LoyaltyProgramTier"
- ☒ C. "Salesforce Data" as the Entry Source, "LoyaltyMemberTier"
- ☐ D. "Salesforce Data" as the Entry Source, "LoyaltyProgramMember" object as the data-source

Question 15 of 50

Choose 1 option.

A Customer Support Manager noticed that the customer support team's performance decreased since the company rolled out the Loyalty Program. The Customer Support Agents complain that finding information about the Loyalty Program Members takes a lot of time.

What is the standard solution to display the information regarding the Loyalty Program Members on the case detail page?

- ☐ A. Develop a custom component
- ☐ B. Create formula fields on Case Object
- ☐ C. Create a Screen Flow
- ☒ D. Embed Loyalty Members Profile Cards

Question 16 of 50

Choose 1 option.

Cloud Kicks has been using Loyalty Management, Sales Cloud, and Service Cloud as part of its tech stack to manage its Loyalty Program. The marketing team is interested in implementing Salesforce Marketing Cloud, so Loyalty program members can be informed and engaged with personalized emails sent using Salesforce Marketing Cloud.

Using the least development effort, how can the Loyalty Management Consultant accomplish the necessary integration between Salesforce Marketing Cloud and Loyalty Management platforms?

- ☐ A. Design Datasets with Dataflows and the Dataset Builder
- ☐ B. Create a connected app to integrate Salesforce Loyalty Management and Marketing Cloud via APIs
- ☒ C. Install and configure Marketing Cloud Connect to integrate with Loyalty Management
- ☐ D. Install and configure Salesforce Marketing Cloud Contacts Connection

Correct: D

Question 17 of 50

Choose 1 option.

Universal Containers have a points-based Loyalty Program and a B2C commerce website built with a Commerce Cloud solution; the clients' orders are already synchronized with Loyalty Management. With every purchase, Loyalty members will earn points. The Director wants to have traceability of every order transaction on the Loyalty Management app.

What does the Salesforce Administrator have to do?

- ☒ A. Use standard Order Lookup of the Transaction Journal Object
- ☐ B. Create a custom Text field in Transaction Journal object to save the order purchased by the client.
- ☐ C. Use standard Order Lookup on the Loyalty Ledger object
- ☐ D. Create a custom Lookup field in Transaction Journal object to save the order purchased by the Loyalty member.

Question 18 of 50

Choose 2 options.

A customer from an airline Loyalty program purchases a ticket, which will accrue qualifying and non-qualifying points according to the Loyalty rules.

Which two automations can be used to set up transactions and points accrual?

- ☒ A. Schedule-Triggered Flow
- ☐ B. Screen Flow
- ☒ C. Evaluation Flow
- ☐ D. Autolaunched Flow (No Trigger)

Question 19 of 50

Choose 1 option.

A Consultant needs to set up a new tier-point reset process for a new Loyalty Program, where the data-processing engine (DPE) configuration is required.

How should the Consultant set up the data-processing engine with the least configuration effort?

- ☐ A. Create a copy of the expire activity based non-qualifying points DPE template.
- ☐ B. Create a new data-processing engine from scratch / by first principle.
- ☒ C. Create a copy of the reset qualifying points DPE template.
- ☐ D. Create a copy of the expire fixed non-qualifying points DPE template.

Question 20 of 50

Choose 2 options.

The Member Services team wants to view the information of a member's recent transactions and manual adjustments on the Contact record

What are the two recommendations that an IT Administrator should suggest?

- ☐ A. Embed the 'Member Services Manager Home Dashboard' on the Contact record
- ☐ B. Embed the 'Member Summary Embedded Dashboard' on the Contact record
- ☒ C. Add the 'View Member Profile' component on the Contact record
- ☒ D. Add the 'Transaction Journals' related list to the Contact record

Question 21 of 50

Choose 2 options.

Which two actions should an Administrator execute when a tier is changed manually?

- ☐ A. Create a scheduled job to perform tier change.
- ☒ B. Assign Member Tier Benefits Action
- ☒ C. Process Member Benefit Action
- ☐ D. Process Transaction Journals batch job

Question 22 of 50

Choose 3 options.

What three types of vouchers can be configured in Loyalty Management?

- ☒ A. Product or Service
- ☐ B. Promo Code
- ☒ C. Fixed Value
- ☒ D. Discount Percentage
- ☐ E. Gift Card

Question 23 of 50

Choose 3 options.

A hotel group has implemented a Loyalty Member Portal for its program members, but some members are experiencing issues accessing their Loyalty Program-specific records on the portal.

What should an Administrator do to ensure the Loyalty members can access Loyalty record information when using the portal?

- ☒ A. Ensure the 'Allow using customer profiles for self-registration, user creation, and login' is enabled
- ☒ B. Using Experience Cloud sharing sets, specify Account as the object of your sharing set
- ☐ C. Ensure the 'Allow using standard external profiles for self-registration, user creation, and login' is enabled
- ☒ D. For the Loyalty Member, 'Enable Customer User' on the Contact or 'Enable Partner User' on the Account
- ☐ E. In the Partner Account record, 'Enable Customer User' on the Contact associated

Question 24 of 50

Choose 3 options.

A Loyalty Program Manager has proposed a new promotion with the following redemption requirements on their non-qualifying points for the two respective tiers:

- for Gold-tier members, a single non-qualifying point is equal to \$2 if the total purchase value is \$200 or more.
- for Gold-tier members, a single non-qualifying point is equal to \$1 if the total purchase value is less than \$200.
- for Blue tier members, a single non-qualifying point is equal to \$1, irrespective of the total value of the purchase.

Considering the above requirements, which three redemption rule options should be selected for the proposed promotion?

- ☒ A. "Gold" tier member with a transaction amount $< \$200$, then "Outcome": non-qualifying point deduction = transaction amount.
- ☒ B. "Blue" tier member with any transaction amount , then "Outcome": non-qualifying point deduction = transaction amount.
- ☒ C. "Gold" tier member with the transaction amount is $\geq \$200$, then "Outcome": tier-qualifying multiplier = 2
- ☐ D. "Gold" tier member with the transaction amount is $\geq \$200$, then "Outcome": non-qualifying point deduction = transaction amount / 2.
- ☐ E. "Blue" tier member with the transaction amount is $\leq \$200$, then "Outcome": non-qualifying point deduction = transaction amount.

Correct: A,B,D

Question 25 of 50

Choose 1 option.

A Marketing Manager is trying to find a dashboard that shows a reward program's progress but does not see any reports or dashboards with this information.

What does an Administrator need to do to present Loyalty Program data to the Marketing Manager?

- ☒ A. Enable CRM Analytics and create a Loyalty app.
- ☐ B. Modify the marketing user profile to include permission to run reports.
- ☐ C. Create a permission set to run reports and assign it to marketing users.
- ☐ D. Search Salesforce AppExchange for Loyalty Analytics apps.

Question 26 of 50

Choose 2 options.

Northern Trail Outfitters (NTO) wants to offer 10% discount on top of the annual summer sale for its Loyalty program customers.

Which two steps must a Consultant take in Loyalty Management to set up this promotion?

- ☒ A. Create within the Loyalty Experiences tab a new Promotion for the Summer Sale campaign where the Loyalty Promotion Type is Standard and the Fulfillment Action is Issue Voucher.
- ☐ B. Create within the Loyalty Experiences tab a new voucher definition for the Summer Sale campaign where the Type is Product or Service and the Expiration Type is Fixed Date.
- ☒ C. Create within the Loyalty Experiences tab a new voucher definition where the Type is Discount Percentage and the Expiration Type is Fixed Date.
- ☐ D. Create within the Loyalty Experiences tab a new Benefit Type for the Summer Sale campaign where the Benefit Type Name is Standard and the Category type is Issue Voucher.

Question 27 of 50

Choose 1 option.

A company has recently rolled out the Loyalty Program in the production environment. The Loyalty Manager is unable to edit any Loyalty Management objects.

What permission set license is required to edit the Loyalty Management Objects?

- ☐ A. Data Pipelines Base User
- ☒ B. Loyalty Management
- ☐ C. CLAAalytics Base User
- ☐ D. CLAAalytics Base Admin

Question 28 of 50

Choose 2 options.

What two fields are attributed to a Loyalty Program entity in the Salesforce Customer Data Platform?

- ☒ A. Reporting Enabled (Boolean)
- ☐ B. Last Modified Date
- ☒ C. Current Member Count
- ☐ D. Created Date

Question 29 of 50

Choose 2 options.

A Loyalty Program has two existing partners, a snacks manufacturer and a beverages importer. There are two new products that need to be directly associated with the respective partner products within the Loyalty partner products section.

The below products have been added to the system and are available under the product objects.

- Chocolate cookies, linked with product category snacks
- Green soda from beverage importer

Which two steps should an Administrator take to fulfill this task with the least effort?

- ☐ A. Choose "Product" option and map the green soda to the partner.
- ☐ B. Add the partner in the lookup on the snack product
- ☒ C. Choose "Category" option and map the Chocolate cookies to the partner.
- ☒ D. Add the partner in the lookup on the Chocolate cookie product .

Correct: A,C

Question 30 of 50

Choose 2 options.

A new segment in Customer Data Platform (CDP) will be used for sending notification requirements: - The mail is sent on the first day of the month to the members that will the same month, starting from the 1st of April to 30th of June - member's expiry-date m

W

Question 30 of 50

Choose 2 options.

A new segment in Customer Data Platform (CDP) will be used for sending notification emails to members with the following requirements: - The mail is sent on the first day of the month to the members that will have their membership expire at the end of the same month, starting from the 1st of April to 30th of June - member's expiry-date are standardized to the last day of the month.

Which two configuration options below should be used for the new segment to fulfill this segmentation requirement?

- ☐ A. In "Segment Property", set "Publish Schedule" to "Don't Refresh".
- ☒ B. In the Segmentation Rule, Use "LoyaltyProgramMember" as the Direct object, > Operator: "This Month" for the "Membership Expiry Date" attribute.
- ☒ C. In "Segment Property," set "Publish Schedule" to "24 hours" and the appropriate "Start Date" and "End Date."
- ☐ D. In the Segmentation Rule, Use "LoyaltyProgramMember" as the Direct object, > Operator: "Next Number of days" = 30 for the "Membership Expiry Date" attribute.

Question 31 of 50

Choose 2 options.

A Loyalty Manager wants to send an SMS to a member's mobile device after the member has made a purchase and their non-qualifying points have been increased.

An integrated solution between Salesforce Loyalty Management and Salesforce Marketing Cloud is proposed to meet this business need.

Which two Salesforce solutions are required to meet the business's needs?

- ☒ A. Marketing Cloud Connect
- ☐ B. Marketing Cloud Mobile Push
- ☐ C. Marketing Cloud Personalization
- ☒ D. Marketing Cloud MobileConnect

Question 32 of 50

Choose 1 option.

A Loyalty member has achieved enough points for Gold tier status; however, the member reports some benefits are missing.

What should the Administrator do to troubleshoot and correct the error?

- ☒ A. Confirm the member is assigned to the correct tier and that tier has benefits
- ☐ B. Confirm the program and member are in an active status
- ☐ C. Issue a promotion to the member for the missing benefits
- ☐ D. Adjust points on the member's record to trigger member benefits actions

Question 33 of 50

Choose 1 option.

Which Loyalty Management Key Component should be used to quickly aggregate a high volume of data spread across many Loyalty Management objects?

- ☐ A. Decision Table
- ☐ B. Quick Actions
- ☐ C. Batch Management
- ☒ D. Data Processing Engine

Question 34 of 50

Choose 1 option.

A company is designing a new Loyalty Program to reward its members based on purchases and short-term and long-term engagement with the program.

Which two types of currency does Salesforce Loyalty Management offer out-of-the-box that can be configured to accomplish the company's Loyalty Program objectives?

- ☐ A. Fixed Model and Activity Model
- ☐ B. Fixed Model and Qualifying Points
- ☐ C. Non-Qualifying Points and Activity Points
- ☒ D. Non-Qualifying Points and Qualifying Points

Question 35 of 50

Choose 1 option.

- ☐ A. Create a Loyalty Process with different rules to manage every combination
- ☐ B. Create an Apex Class and implement a Redemption Catalogue engine.
- ☐ C. Create a Decision Tree using Flows with a leaf for every combination
- ☒ D. Create a Decision Table and define the Redemption Catalogue as business rules.

Question 36 of 50

Choose 1 option.

While designing an experiential Loyalty Program, what are the two recommended objects to be used as a best practice to track what type of activity the member had with the program?

- ☐ A. Journal Type & Journal Subtype
- ☐ B. Loyalty Ledger & Transaction Journal
- ☒ C. Transaction Journal Type & Transaction Journal Subtype
- ☐ D. Loyalty Member Currency & Transaction Journal

Question 37 of 50

Choose 1 option.

A company has recently rolled out a Loyalty Program with three tiers. The company decided to offer personalized benefits based on customer behavior.

How will the personalized benefits be displayed for each Loyalty Program Member?

- ☐ A. On the Member Benefit Related List, linked to Loyalty Program Member
- ☐ B. On the Transaction Journal Related List, linked to Loyalty Program Member
- ☐ C. On the Voucher Related List, linked to Loyalty Program Member
- ☒ D. On the Loyalty Member Tier Benefit Related List, linked to Loyalty Program Member

Question 38 of 50

Choose 1 option.

Northern Trail Outfitters would like to encourage sustained engagement with its brand over time, the company has created a Promotion that issues a bonus reward to members who make three purchases in a single month.

What type of Loyalty Promotion should the Administrator use?

- ☐ A. Aggregate Promotion
- ☒ B. Cumulative Promotion
- ☐ C. Standard Promotion
- ☐ D. Joint Promotion

Question 39 of 50

Choose 1 option.

A hotel group wants to implement a Loyalty program that gives its members points based on the number of nights per stay each time members visit one of its hotels. Once a customer reaches 1000 points, members can redeem points with any hotel within the hotel group. The points can be converted to cover the cost of one night's stay on the next visit. The hotel group hopes this incentive will encourage its members to book more frequently, increasing revenue.

Which type of currency should a Loyalty Consultant use to set up the Loyalty program to accomplish the hotel group's goals?

- ☒ A. Qualifying Points
- ☐ B. Non-Qualifying Points
- ☐ C. Tier Qualifying Points
- ☐ D. Non-Qualifying Points and Qualifying Points

Question 40 of 50

Choose 1 option.

The Loyalty Administrator for Northern Trail Outfitters (NTO) defines Basic and Premium as the two Tiers for its Insider program. They want to define a free product sample for all members in Premium Tier.

How does NTO configure tiers within the Loyalty Program to give vouchers for members in the Premium Tier?

- ☒ A. Voucher Management; Benefits Setup (in Program console); Benefit Action to process benefits
- ☐ B. Voucher Management and Benefit Action
- ☐ C. Voucher Management; Benefits Setup (in Program console); Benefit Action to define downstream actions and FLOW - Benefit action for orchestration
- ☐ D. Voucher Management and Benefits Setup

Correct: C

Question 41 of 50

Choose 1 option.

An Administrator needs to analyze the performance of the Loyalty Program.

What Loyalty Analytics permission does a System Administrator need to set up and customize?

- ☐ A. CRM Analytics User
- ☐ B. Data Pipeline User
- ☐ C. CLAAalytics Base Admin
- ☒ D. Loyalty Analytics User

Question 42 of 50

Choose 1 option.

What is the most efficient way to automatically reset qualifying points for high volume Loyalty Programs?

- ☒ A. Use the out-of-the-box "Reset Qualifying Points" data processing engine and trigger its execution using, for instance, a Schedule-Triggered Flow.
- ☐ B. The reset period is defined at the Tier Group level; Loyalty Management will automatically process it every night to ensure efficient point calculation.
- ☐ C. Create Schedule-Triggered Flow that to be executed every night. This flow will scan the expired reset Periods at the Tier Group Level and reset the points using the out-of-the-box "Reset Points" flow action.
- ☐ D. Develop an Apex Time Trigger to scan all Member Currencies and reset Qualifying points every time a reset period has expire

Question 43 of 50

Choose 1 option.

The Loyalty Administrator for Northern Trail Outfitters (NTO) Insider program defines tier groups - Status Tier Group with a Fixed Model and Period of one year. The three tiers are defined - Silver (base), Gold (next tier), and Platinum (the highest tier).

Qualifying Points reset date is set at December 31, 2022, with a frequency of one year.
Extend Expiration for this tier group is Qualifying Points Reset Date.

A member joins NTO Insider in the Silver tier and, after a year of engagement, gets upgraded to the Gold tier on March 16, 2023.

Which date would be the new Expiry date for this member after the tier is upgraded to Gold?

- ☒ A. 31-Dec-23
- ☐ B. 16-Mar-24
- ☐ C. 31-Dec-24
- ☐ D. 31-Mar-24

Question 44 of 50

Choose 1 option.

Which set of features should a Consultant check before setting up expanded partner management?

- ☐ A. Growth license, PostPaid Billing Type, Partner Ledgers, Partner Conversion Factor for Currencies
- ☐ B. Advanced license, Partner Ledgers, Partner Transactions, Billing Type
- ☒ C. Advanced license, PostPaid Billing Type, Partner Ledgers, Partner Conversion Factor for Currencies
- ☐ D. Growth license, Prepaid Billing Type, Partner Transactions, Partner Conversion Factor for Currencies

Question 45 of 50

Choose 1 option.

A Consultant will need to create a new voucher definition for a new voucher, where the new voucher has these requirements:

- A total of two vouchers will be issued to the member.
- The first voucher has a face value of \$100, and the second voucher has a face value of \$200.
- Both vouchers must be used within three months after the first voucher's disbursement date.
- The first voucher will be issued to the members over a period of a month.

Which voucher definition settings will fulfill the new voucher's requirements?

- ☒ A. Type: Fixed Valued, Expiration Type: Period, Expiration Period: 3, Expiration Period Unit: Month, Face Value: \$300, Partial Redeemable: Checked
- ☐ B. Type: Fixed Valued, Expiration Type: Period, Expiration Period: 90, Expiration Period Unit: days, Face Value: \$300, Partial Redeemable: Checked
- ☐ C. Type: Fixed Valued, Expiration Type: Period, Expiration Period: 3, Expiration Period Unit: Month, Face Value: \$300, Partial Redeemable: Unchecked
- ☐ D. Type: Product or service, Expiration Type: Period, Expiration Period: 3, Expiration Period Unit: Month, Face Value: \$300, Partial Redeemable: Unchecked

Question 46 of 50

Choose 2 options.
