

Question 1 of 65

Choose 1 option.

As part of a service improvement project, Cloud Kicks (CK) has implemented Knowledge management for its support agents. Several months after the implementation, CK management notices an inconsistency in reported customer satisfaction. Key performance indicators (KPIs) show a decrease; however, many customers have provided testimonials about great support experiences.

Which KPI could help explain the disparity?

- ☐ A. Measure cases with and without articles attached with high CSAT scores.
- ☐ B. Measure cases with and without articles attached based on case status.
- ☒ C. Measure cases with and without articles attached with high net promoter scores (NPS).

Question 2 of 65

Choose 1 option.

Universal Containers has recently implemented a new CTI system, Knowledge base, and Einstein Chatbots to interact with customers. The VP of support and services has asked for additional system improvements to facilitate customer self-service.

What should the consultant recommend?

- ☐ A. Have customers search the Knowledge base for solutions.
- ☒ B. Create an Experience Cloud site for customers.
- ☐ C. Provide a toll-free customer support phone number.

Question 3 of 65

Choose 1 option.

Ursa Major Solar (UMS) provides customers with remote monitoring of solar panels. When there are issues with the service, such as a power outage, UMS needs to provide service agents, operations teams, and customers with full visibility into the issue.

What is the recommended feature to meet the requirements?

- ☐ A. Workforce Engagement
- ☒ B. Incident Management
- ☐ C. Field Service Management

Question 4 of 65

Choose 1 option.

A contact center manager wants to measure improvements to capacity planning operations after the implementation of a new workforce management system.

Which metric should a consultant use to assess the success of the new workforce management system?

- ☐ A. Number of closed cases
- ☒ B. Agent utilization
- ☐ C. Deflection rate

Question 5 of 65

Choose 1 option.

Cloud Kicks (CK) uses Sales Dialer and one-click calling to initiate phone calls to customers. CK has recently received complaints from customers who have set their communication preferences to email only or text only.

What is the most efficient solution the consultant should use to meet the requirements?

- ☒ A. Use Dynamic Forms to hide the phone number.
- ☐ B. Set the Contact Do Not Call field value to True.
- ☐ C. Remove the phone number from the page layout.

Question 6 of 65

Choose 1 option.

Universal Containers wants to offer its customers interactive chat as well as case processing. The same team of service agents will be handling both types of communication from customers.

Which solution should a consultant recommend to ensure that service agents are only assigned an appropriate number of issues?

- ☐ A. Case assignment rules
- ☒ B. Omni-Channel
- ☐ C. Case team

Question 7 of 65

Choose 1 option.

Service agents have reported that the Lightning Service Console is too crowded which makes it difficult to find the information they need. After reviewing the agents' console use, a consultant has determined that all configured features are required.

Given this scenario, which solution should a consultant suggest to improve the efficiency for console users?

- ☒ A. Train on keyboard shortcuts.
- ☐ B. Create multiple console layouts.
- ☐ C. Configure dynamic layouts and set component visibility.

Question 8 of 65

Choose 1 option.

Universal Containers has created permission sets granting access to objects and fields in one of its sandboxes.

Following best practices, how should a consultant deploy these permission sets to production?

- ☐ A. Re-create them manually.
- ☐ B. Use Salesforce Workbench.
- ☒ C. Use a change set.

Question 9 of 65

Choose 1 option.

Universal Containers implemented Case Management to support business-to-consumer (B2C) customers. One custom field includes the customer's Personal Identifiable Information (PII) data. When a case is submitted, an account manager requires Read-Only access and needs to view the customer's PII data. A support engineer requires Read and Write access but no visibility into the customer's PII data.

Which solution should a consultant recommend to meet the requirements?

- ☐ A. Configure View All for the Case object and field-level security.
- ☐ B. Configure OWD for the Case object and implement Salesforce Shield.
- ☒ C. Configure Case Team with Read Write and field-level security.

Question 10 of 65

Choose 1 option.

Which advantage does Salesforce provide with the OpenCTI framework?

- ☐ A. Developers can integrate with any telephony platform available with minimal need for customization.
- ☒ B. Agents can use telephony on a wide range of browsers and operating systems while only developing once.
- ☐ C. Agents can run their softphone at the operating system level, embedded in the task bar or system tray.

Question 11 of 65

Choose 1 option.

Universal Containers has three internal divisions that use Salesforce Knowledge. Compliance requirements mandate that each division should only have access to its own articles when performing a search.

Which solution should a consultant recommend to meet this requirement?

- ☒ A. Create a sharing rule for each division to provide access using the role hierarchy.
- ☐ B. Create a sharing rule for each division to provide access based on the article category.
- ☐ C. Create a single data category group for each division and provide access using the role hierarchy.

Question 12 of 65

Choose 1 option.

Cloud Kicks (CK) has created hundreds of Knowledge articles about its products. The articles have been attached to closed cases. A new product release will require changes to dozens of articles. After revising the articles, CK wants to ensure that a prior article version stays associated with the closed cases.

What is the recommended method to meet the requirements?

- ☐ A. Add "updated" to the name of the new article.
- ☐ B. Use Smart Link to Article to select the prior version.
- ☒ C. Select the 'Flag as new version' checkbox when publishing.

Question 13 of 65

Choose 1 option.

The customer support team at Universal Containers (UC) has noticed a large increase in Case Resolution times recently. UC wants to use Einstein for Service to help agents locate the relevant information more quickly.

Which feature should the consultant recommend?

- ☐ A. Einstein Bots
- ☒ B. Einstein Article Recommendations
- ☐ C. Einstein Reply Recommendations

Question 14 of 65

Choose 1 option.

Universal Containers needs to provide contact center agents with access to a customer's payment history if the call concerns a billing problem. The following considerations need to be taken into account:

- Billing data is stored in an external system containing over 20 million records.
- Only the finance department has direct access to the billing system.

Which solution should a consultant recommend?

- ☐ A. Integrate payment data into Salesforce from the billing system using custom objects.
- ☒ B. Configure Salesforce Connect and External Objects to the billing system.
- ☐ C. Create a custom tab that displays a search page from the billing system.

Question 15 of 65

Choose 1 option.

Cloud Kicks frequently works with distribution partners who have complex issues that need immediate attention. To solve the issues, Tier 2 support often needs to engage other teams within the organization. The team uses Slack to communicate internally.

Which solution should the consultant recommend to meet the needs of the organization?

- ☐ A. Case escalation
- ☒ B. Swarming
- ☐ C. Omni-Channel routing

Question 16 of 65

Choose 1 option.

Universal Containers requires that users have the ability to view specific cases, as determined by the Product Type field on the case. When a case is created or closed, an email should be sent only to users who have access to the case.

Which feature should a consultant recommend to meet these requirements?

- ☐ A. Account teams
- ☐ B. Case swarms
- ☒ C. Case teams

Question 17 of 65

Choose 1 option.

A consultant has been asked to advise Cloud Kicks (CK) on how to manage 5 years of case data so it is available to customers upon request.

Which feature will help CK users archive and access the case information from an External Object?

- ☐ A. Salesforce Big Object
- ☐ B. Salesforce CaseHistory Object
- ☒ C. Salesforce Connect

Question 18 of 65

Choose 1 option.

Universal Containers provides customer support for both new products and routine maintenance of existing products. The cases for both types have many stages and fields in common; however, the maintenance cases have additional stages and fields that need to be captured.

Which feature should a consultant recommend to accomplish this objective?

- ☒ A. Support Processes
- ☐ B. Approval Processes
- ☐ C. Support Types

Question 19 of 65

Choose 1 option.

Universal Containers has tested Skills-Based Routing in a sandbox and is ready to deploy to production.

Which solution should a consultant use to deploy the Service Resources, Skills, and Routing?

- ☐ A. Data Import Wizard
- ☐ B. Mass Transfer Records

☒ C. Data Loader

Question 20 of 65

Choose 1 option.

Universal Containers (UC) is in the process of setting up Experience Cloud. UC needs to give customers access to their agreed upon response times via the portal.

Which solution should a consultant recommend?

- ☐ A. Maintenance Plans
- ☒ B. Milestones
- ☐ C. Service Contracts

Question 21 of 65

Choose 1 option.

Cloud Kicks has several hundred knowledge articles that span dozens of topics and cover a wide range of products, help articles, and trouble shooting ideas. The admin at Cloud Kicks is going to organize the knowledge articles into Data Categories.

What should the admin keep in mind when organizing articles?

- ☐ A. There can be up to 10,000 data categories.
- ☐ B. Data category hierarchy can have up to 10 levels.
- ☒ C. Articles can have up to 8 data categories.

Question 22 of 65

Choose 1 option.

Cloud Kicks is planning to provide different levels of support to customers in order to ensure its agents are working within the confines of the service-level agreements (SLAs).

Which feature should the consultant consider?

- ☐ A. Case Management

☒ B. Entitlements

- ☐ C. Service Contracts

Question 23 of 65

Choose 1 option.

The support manager at Universal Containers wants to improve visibility to cases across the organization and has decided that product managers should be more involved in the case management process. The support manager has created predefined case teams for each product with the stakeholders defined. Support agents have been trained to add the appropriate case team to each case.

Which solution allows product managers to quickly see and review the cases that are created for their products?

- ☐ A. Configure a Case related list on the Product page layout.
- ☐ B. Configure a Case list view filtered by My Cases.
- ☒ C. Configure a Case list view filtered by My Case Teams.

Question 24 of 65

Choose 1 option.

Case closure time at Cloud Kicks (CK) is too high although CK already enabled Knowledge Management.

What should the consultant recommend to decrease case closure time?

- ☒ A. Enable Suggested Articles.
- ☐ B. Create synonym groups.
- ☐ C. Add data category groups.

Question 25 of 65

Choose 1 option.

Universal Containers (UC) faces challenges in efficiently managing and responding to a growing number of customer queries within Service Cloud. A consultant is advising on the implementation of chatbots to improve current customer support operations.

Which specific aspect should UC prioritize when implementing chatbots to improve customer support operations?

- ☒ A. Focus on scalability for handling high inquiry volume.
- ☐ B. Work on integrating with social media platforms.
- ☐ C. Emphasize continuous monitoring of chat.

Question 26 of 65

Choose 1 option.

Universal Containers (UC) wants to deploy Service Cloud to 100 contact centers located across North America, Europe, and Asia. UC wants standardized reporting across worldwide contact centers' key performance indicators (KPIs).

Which approach should a consultant recommend in this scenario?

- ☐ A. Ask leadership, management, and agents in all regions to vote on the standard report template.
- ☒ B. Assign a global team of experienced analysts to create a standard report template.
- ☐ C. Request that the VP of worldwide support design a standard report template to provide a clear vision.

Question 27 of 65

Choose 1 option.

Universal Containers has recently implemented Chat and is looking for recommendations about how to improve agents' ability to find the appropriate answer while chatting with customers.

What should a consultant recommend to meet this requirement?

- ☒ A. Einstein Article Recommendations
- ☐ B. Action & Recommendations component
- ☐ C. Einstein Reply Recommendations

Question 28 of 65

Choose 1 option.

Which approach should a consultant use to ensure that Lightning Knowledge searches only display articles for a service agent's product specialization?

- ☒ A. Create a data category for each product. Assign data categories to service agents.
- ☐ B. Create a permission set for each record type. Assign permissions to service agents.
- ☐ C. Create an article action for each record type. Assign record types to service agents.

Question 29 of 65

Choose 1 option.

The Universal Containers product development team uses Service Cloud. UC has recently added its billing support team to its existing Service Cloud implementation. Upon reviewing the billing and product team's case lifecycles, the following statuses were documented:

- Billing support team: New, Under Review, In Progress, Blocked, Closed
- Product development team: New, Under Review, In Progress, Closed

How should a consultant configure Service Cloud to provide each team with the correct case lifecycle?

- ☐ A. Create a Path widget to visualize each team's lifecycle.
- ☐ B. Use dynamic forms to hide unnecessary options for each team's lifecycle.
- ☒ C. Use Support Processes for each team's lifecycle.

Question 30 of 65

Choose 1 option.

Which Salesforce resource can be attached to a customer email using standard Case Management capabilities?

- ☒ A. Knowledge articles suggested by Einstein
- ☐ B. Upcoming Milestones for the Case's Entitlement
- ☐ C. Internal Chatter posts about the Case

Question 31 of 65

Choose 1 option.

Universal Containers (UC) is implementing Service Cloud within its North America call center to validate key use cases, system capabilities, and integration patterns. The UC leadership team is concerned that the upcoming Salesforce Release schedule may impact the implementation project's development efforts.

What should a consultant recommend that UC's Salesforce admin do in this scenario?

- ☐ A. Postpone the release to the production org so the team can finish the project before the release is deployed.
- ☐ B. Disable updates to the sandbox so the team can continue using the solution without the updates from the release.
- ☒ C. Opt the sandbox in as a preview org so the team can conduct testing prior to the release being deployed.

Question 32 of 65

Choose 1 option.

Cloud Kicks will use the Salesforce Knowledge Article Importer to migrate existing articles from another knowledge base. The current knowledge base includes how-to guides written in HTML.

What is the recommended method to import the how-to guides into Salesforce Knowledge?

- ☐ A. Modify the import parameters to specify HTML encoding.
- ☐ B. Change the HTML format first to support subfields.
- ☒ C. Create an HTML file for each rich text area field.

Question 33 of 65

Choose 1 option.

What is a consideration when adding a report chart to a Page Layout or a Lightning Record Page?

- ☒ A. The report must contain a chart.
- ☐ B. The report must have a standard Report Type.
- ☐ C. The report must be used on a Dashboard.

Question 34 of 65

Choose 1 option.

Cloud Kicks is changing its case management system to Salesforce. All active accounts, contacts, and closed cases for the past 5 years need to be migrated to Salesforce for go-live.

Which approach should a consultant use for data migration?

- ☒ A. Plan, Prepare, Test, Execute, Validate
- ☐ B. Plan, Prepare, Execute, Test, Validate
- ☐ C. Prepare, Plan, Test, Validate, Execute

Question 35 of 65

Choose 1 option.

What is a common deflection technique to reduce the number of interactions for a contact center?

- ☐ A. Recommend articles during a call from a support agent.
- ☒ B. Recommend articles prior to a Chat session.
- ☐ C. Suggest articles for an Email-to-Case question.

Question 37 of 65

Choose 1 option.

Cloud Kicks (CK) uses Lightning Experience and Lightning Knowledge in its service center. CK wants an easy way for service agents to create new articles when closing a case. The new article should include appropriate details from the case to make it useful for others.

What is the recommended method to meet the requirements?

- ☐ A. Use a trigger to automatically create a new article.
- ☐ B. Develop a globally-shared macro to create a new article.
- ☒ C. Create a Quick Action to map case fields to a new article.

Question 38 of 65

Choose 1 option.

Universal Containers wants to let its customers interact in real time with support agents from their computers and mobile devices.

Which feature should a consultant recommend to meet this requirement?

- ☒ A. Einstein Chat Bot
- ☐ B. Service Cloud Voice
- ☐ C. Digital Engagement

Question 39 of 65

Choose 1 option.

Cloud Kicks wants to offer its customers a more personalized, flexible service experience beyond emails, phone calls, and chatbots.

What should the consultant recommend to meet this requirement?

- ☐ A. Social media
- ☐ B. Salesforce Knowledge
- ☒ C. Messaging apps

Question 40 of 65

Choose 1 option.

Universal Containers (UC) is ramping up its Knowledge program. UC has a robust analytics team that would like to report on trends in Knowledge Searching, User Activity, and Data Category Usage.

Which reporting solution should a consultant recommend?

- ☒ A. Knowledge Base Reports and Dashboard Package Installation
- ☐ B. Knowledge Dashboard Pack for CRM Analytics Installation
- ☐ C. Custom Report Types with Reports and Dashboards

Question 41 of 65

Choose 1 option.

Service Console users work on dozens of cases at a time and often need to update a case they worked on earlier in the day.

What should a consultant recommend?

- ☐ A. Keep all cases open in tabs.
- ☒ B. Add History to the Utility bar.
- ☐ C. Create a custom dashboard.

Question 42 of 65

Choose 1 option.

Universal Containers has recently implemented an Experience Cloud site to allow its customers to create and update their cases online. Customers should only be able to access the cases where they are listed as the contact, including cases created by the support team on their behalf.

What should a consultant recommend to meet the requirement?

- ☐ A. A sharing rule to ensure record access is granted based on the Experience Cloud site user role hierarchy
- ☒ B. A sharing set to grant the Experience Cloud site user access to records associated to their Contact record
- ☐ C. An organization-wide default of Public Read/Write on the Case object

Question 43 of 65

Choose 1 option.

Cloud Kicks (CK) wants to explore having a full Incident Management, Swarming, and Change Management process to provide a foundation for its auditing and governance needs. CK also wants interactive recommendations for every department during this process.

Besides implementing Incident Management and Service Cloud for Slack, what should a consultant recommend for the full solution?

- ☐ A. Implement Guidance for Success and Knowledge articles.
- ☐ B. Implement a third-party app from AppExchange.
- ☒ C. Implement Flow Orchestration with Work Guides.

Question 44 of 65

Choose 1 option.

Universal Containers (UC) wants to improve case management by assigning cases to agents based on their relevant product specialization. UC also wants to automatically assign agents to the next case to evenly distribute the case workload.

Which Omni-Channel feature meets the requirements?

- ☒ A. Use the Most Available routing model.
- ☐ B. Use the agents' Presence Status.
- ☐ C. Use Most Cases Closed report.

Question 45 of 65

Choose 1 option.

The support management team at Universal Containers has noticed an increase in wait times over the last several months when customers call in for support.

What should a consultant recommend to help decrease customer wait times?

- ☐ A. Set up analytical snapshots to capture key case information and create historical trending reports.
- ☐ B. Create case escalation rules to route high-priority cases directly to supervisors for resolution.
- ☒ C. Create reports to analyze call data in order to understand peak times and ensure adequate staffing.

Question 46 of 65

Choose 1 option.

What should a consultant recommend to ensure chat requests contain sufficient information for service agents to respond effectively?

- ☐ A. Customize the Lightning Console chat page.
- ☐ B. Customize Intents using Einstein Chatbots.
- ☒ C. Customize the pre-chat form.

Question 47 of 65

Choose 1 option.

Cloud Kicks (CK) supports customers through Salesforce Messaging. Service agents have reported multiple instances where customers have used abusive language. CK wants a way to prevent abusive customers from starting future messaging sessions.

What is the recommended feature to meet the requirement?

- ☒ A. Create an IP blocking rule.
- ☐ B. Create an Omni-flow.
- ☐ C. Create a record-triggered flow.

Question 48 of 65

Choose 1 option.

Metrics show that Universal Containers has a high call abandonment rate using Service Cloud Voice.

Which strategy should a consultant recommend?

- ☐ A. Set up assignment rules and case queues.
- ☐ B. Set up Contact Requests.

☒ C. Set up self-service Knowledge.

Question 49 of 65

Choose 1 option.

Which solution should a consultant design so the average number of days that Cases stay open can be easily reported?

- ☐ A. Use the standard Case Age field on the report.
- ☐ B. Create a formula field on the report to show Case Days Open.
- ☒ C. Create a formula field to calculate the days and use the field in the report.

Question 50 of 65

Choose 1 option.

Cloud Kicks uses Einstein Next Best Action to help service agents when working on a customer case. Multiple service agents work on the same case.

What should a consultant configure to show service agents when items were started, paused, resumed, and completed?

- ☐ A. Case History related list
- ☒ B. Actions & Recommendations component
- ☐ C. Activity analytics tab

Question 51 of 65

Choose 1 option.

The contact center at Universal Containers wants to reduce call volume and resolution time within Service Cloud.

Which solution should a consultant recommend?

☒ A. Knowledge base

- ☐ B. Email-to-Case
- ☐ C. Chat with an agent

Question 52 of 65

Choose 1 option.

Universal Containers is getting ready to start User Acceptance Testing (UAT) for its customer service transformation project. The consultant has been asked where the testing should occur. The business users and stakeholders need an environment that can support 60 days of UAT and includes representative data from production.

Which environment type should the consultant recommend?

- ☐ A. Developer Pro Sandbox
- ☐ B. Partial Copy Sandbox
- ☒ C. Full Copy Sandbox

Question 53 of 65

Choose 1 option.

The VP of Service at Cloud Kicks (CK) wants to enable Service Cloud users to access and generate reports using work order data stored in an enterprise data warehouse (EDW).

Which approach should the consultant recommend to streamline this process with minimal effort?

- ☐ A. Implement a batch integration process that runs every 15 minutes to synchronize work order data into Salesforce.
- ☒ B. Use Salesforce Connect and External Objects to represent work order data in Salesforce.
- ☐ C. Create a Custom Object and utilize Data Loader to import work order data into Salesforce.

Question 54 of 65

Choose 1 option.

Cloud Kicks provides support to customers in email, social, and chat channels. Managers want to find a way to improve service agent efficiency. A recent study found agents spend a lot of time searching for articles, manually copying text from the article, and pasting it into responses.

What should a consultant recommend as a solution?

- ☐ A. Set up quick text options in the utility bar to add article links.
- ☒ B. Configure Lightning Knowledge component and related list actions.
- ☐ C. Configure Lightning Knowledge component to auto attach article PDF.

Question 55 of 65

Choose 1 option.

Cloud Kicks uses a console app to support users. Service agents open an Account workspace tab and multiple subtabs for the Case, Contact, and Service Contract. Service agents would like to share links to recently opened subtabs with other users to collaborate on cases.

What should a consultant recommend to meet the requirements?

- ☐ A. Include the History utility in the console app.
- ☒ B. Copy the browser URL and paste into a Slack message.
- ☐ C. Add the Account object to Recent Items utility.

Question 56 of 65

Choose 1 option.

A consultant is working on a Service Cloud implementation with a fixed budget and timeline. Additional requirements were discovered early on that will result in the project exceeding timeline and budget constraints.

What is the first step the consultant should take to address the issue?

- ☐ A. Incorporate the additional requirements to the project scope and continue with the original project schedule.
- ☐ B. Send a change order to the client to account for the additional budget requirements.
- ☒ C. Document the gap in requirements and discuss the schedule and budget impact with the project team.

Question 57 of 65

Choose 1 option.

Cloud Kicks' service agents frequently receive requests for order updates. All order information is managed by a separate cloud-based enterprise resource planning (ERP) system. Agents currently jump between applications to search for these details and have asked if this process can be improved.

Which approach should the consultant recommend to streamline the process?

- ☐ A. Create a batch integration process that runs hourly to pull all order updates into Salesforce.
- ☐ B. Create a dynamic action that launches the ERP system with a deep link to the order locator.
- ☒ C. Use Salesforce Connect and External Objects to represent this information in Salesforce.

Question 58 of 65

Choose 1 option.

Universal Containers is implementing Service Cloud to make the workflow more efficient and improve customer support.

When setting up Service Cloud, how can a consultant ensure that service agents have access to the right customer information when viewing a case?

- ☒ A. Expose cross object fields on the case record Lightning page.
- ☐ B. Use a flow to copy a value from a contact record to the case.
- ☐ C. Use a formula to pull fields from a contact record to the case.

Question 59 of 65

Choose 1 option.

Universal Containers is using Service Cloud for customer entry and case management, but order fulfillment, inventory, invoicing, and financial data are stored in other systems.

Which solution should a consultant recommend for integration?

- ☐ A. Utilize Apex with integrated External Objects.
- ☐ B. Utilize an AppExchange integration package.
- ☒ C. Utilize MuleSoft to integrate the systems.

Question 60 of 65

Choose 1 option.

Cloud Kicks (CK) wants to adopt artificial intelligence (AI) for improving case closure key performance indicators (KPIs) and product support planning within its Service organization. CK has at least 1,000 closed cases from which it can predict accurate values for fields that are empty. CK has yet to implement any Einstein AI products.

Which approach should the consultant recommend to start AI efforts at CK?

- ☐ A. Review and address Case data issues and set up Einstein Article Recommendations.
- ☐ B. Confirm there are enough closed cases and turn on Einstein Service AI Grounding with Cases.

☒ C. Review and address Case data issues and set up Einstein Classification Apps.

Question 61 of 65

Choose 1 option.

Universal Containers wants to develop a new Case Management solution. The end-to-end solution will include integrations with third-party systems.

Following best practices, which development and deployment path should a consultant recommend?

- ☐ A. Develop and test Salesforce functionality in one sandbox, and then rebuild the functionality in production.
- ☐ B. Develop in one sandbox, complete quality assurance in a different sandbox, and then perform user acceptance and integration testing in production.
- ☒ C. Set up separate sandboxes for development, quality assurance, and user acceptance testing, and then move the features to production.

Question 62 of 65

Choose 1 option.

To help service agents more accurately respond to a new case, Universal Containers wants a list of relevant Knowledge articles displayed on the Case record page.

How should a consultant configure this requirement?

- ☒ A. Add the Knowledge component to the Case record page.
- ☐ B. Add the Knowledge tab to the Service Console.
- ☐ C. Add the Knowledge related list to the Case record page.

Question 63 of 65

Choose 1 option.

Cloud Kicks (CK) recently implemented Knowledge-Centered Support (KCS) to improve the expertise of its agents. The pilot focused on creating articles for the most common support topics. After the pilot, customer satisfaction has improved and average call time has decreased. To continue improving support key performance indicators (KPIs), CK wants to know where to focus its efforts next.

What should a consultant recommend that CK do next?

- ☐ A. Detach articles from cases to reset statistics.
- ☐ B. Allow agents to create and publish articles independently.
- ☒ C. Use the Search Activity Gaps dashboard component.

Question 64 of 65

Choose 1 option.

Cloud Kicks wants to standardize its service key performance indicators (KPIs) for response time and first case closure rates. Individual service agents, team leaders, regional directors, and the VP of service should see the same KPIs calculated using only the data the user can access.

What is the recommended running user to meet the requirements?

- ☒ A. Dashboard viewer
- ☐ B. Team leaders
- ☐ C. VP of service

Question 65 of 65

Choose 1 option.

Cloud Kicks customers need a method to create cases without a login. Managers are concerned that public options will increase the number of spam cases created.

What is the recommended option to prevent the creation of spam cases?

- ☐ A. On-Demand Email-to-Case Threading
- ☐ B. Web-to-Case with Einstein Case Classification
- ☒ C. Web-to-Case with reCAPTCHA enabled
