59 of 60. Customer complaints for bad interactions with a customer support agent are logged as Cases and assigned to a human resources representative. The agent of the complaint should not see the case, but their manager should.

How is this accomplished?

B63897077645342C6ABD3C34EFC499FB

- A. ☒ Trigger on Case to lookup and share to the manager of an Assigned Agent custom field (the subject of the complaint) using Apex Managed Sharing.
- B. ☐ Case is owned by the subject of the complaint, so their manager in the role hierarchy can access the record. CRED permission are removed on Case so the agent cannot read the case record.
- C. ☐ Criteria based Sharing Rule on Case that shares to the Role Manager and above when a custom field Assigned Agent (subject of the complaint) is not blank.

60 of 60. Sales operations at Universal Containers (UC) wants to create list views to filter opportunities for certain geographies.

How should UC hide list views that are not relevant to an individual user since there will be more than 50 list views?

B63897077645342C6ABD3C34EFC499FB

- A. ☒ Share the list views with the appropriate public group.
- B. ☐ Share the list views with the appropriate individual users.
- C. ☐ Share the list views with the appropriate queue.

☐ Mark this item for later review.
